

Church of Profitsea 3.0

A New Trinity: Happy, Healthy and Wealthy

Or... Happy, Healthy and Worthy

Or... Faith, Focus and Freedom

Or... Faith, Family and Fun!

Or... Purpose, Power and Prosperity

It has been 7 years since the original publication of Church of Profitsea in 2017. I am not the same person I was 7 years ago. As my consciousness has expanded, I decided it was time to upgrade the book. This book will no longer be sold on Amazon. You can now download it free of charge from my website and from my You Tube Channel.

The first major change is the author's name. In 2017, I was Karen Steil. In 2023, I fell in love with my birth name. (Karen Grey Seeley) It is who I AM. I haven't used this name since 1963, so it has been hard getting used to, but this is the name I want to leave this physical dimension with to honor my father, Allan H Seeley, Jr. I loved him very much, and I loved the fact that he loved my mother more than I have seen any man love a woman in my lifetime. That being said, I wouldn't wish that kind of love on any couple. Please read Kahlil Gibran's poem on marriage. It is found in his book, *The Prophet*.

There are many new trinities in this book. Happy, Healthy and Wealthy is just one of them. For those readers who are too spiritual to be wealthy, please replace the new trinity with: Happy, Healthy and Worthy! Without knowing your WORTHINESS, how could you possibly believe that you are the creator of your own happiness, your health and your wealth?

I have pointed out several times in the evolution of this book, that worthiness is not something you *earn* it is not even a *gift*, it is who you ARE. Until that revelation comes to you personally, the full impetus of the message in this book will remain unreceived by you.

I am Karen Grey Seeley,
Minister, Life Coach, Entrepreneur, Lover of Life

CHURCH
of **PROFITSEA[®]**

**A NEW TRINITY:
HAPPY, HEALTHY AND WEALTHY**

Karen Grey Seeley

Revised: September, 29, 2024

All rights to this book are to be shared with the world.

The author is encouraging the dissemination of this book through any means available. Post it on your social media, text or email it to people you love and admire; store it in your “favorites” for future and often use. There is also a PDF of this book available for download on the Church of Profitsea website and on the Church of Profitsea YouTube channel.

The author requests only one thing: Do not defend it. It is not yours to defend. The Law of Attraction is gathering all the cooperative components that will raise the Christ consciousness on this planet. All who are seeking will find.

Albert Einstein’s influence is in every pixel of this book. As the Father of Cosmic Religion, he said, “Great Spirits have always been violently opposed by mediocre minds.” There will be opposition, but don’t invite it by defending it. Stand in and with the Truth of your Being and walk away.

As leaders in the new heaven and new earth, we believe in teaching by example. We have to rise above mediocrity. If that is not your calling, then this book is probably not for you.

This book is dedicated to the memory of Jerry Hicks.
The Universe is richer because of his “asking.”
Ask and It is Given

This book is also dedicated to my son, Scott.
He has been the Light of *my* World
every day of his life.

Table of Contents

Chapter 1 – Einstein’s Religious Cosmology	10
Chapter 2 – The Entrepreneurial Spirit.....	14
Chapter 3 – The Breakthrough.....	18
Chapter 4 – The Great Divide	20
Chapter 5 – How It Works	24
Chapter 6 – Death is the Bogeyman	28
Chapter 7 – Happy, Healthy and Wealthy (Mind/Body/Spirit)	31
Chapter 8 – Give Caesar His Taxes	36
Chapter 9 – The Truth about Tithing	38
Chapter 10 – We Teach by Example	40
Chapter 11 – Are We All One?.....	44
Chapter 12 – The Vortex: Our Vibrational Reality	47
Chapter 13 – Happiness is a Relationship that Encourages Freedom and Growth.....	49
Chapter 14 – Hear No Evil, See No Evil, Speak No Evil.....	51
Chapter 15 – We Are the Light of the World	54
Chapter 16 – The Evolution of Religion.....	56
Chapter 17 – Twelve Premises Behind Formation	59
Chapter 18 – Where Do We Go From Here?.....	69
Chapter 19 – The Elephant in the Room.....	73
Chapter 20 – 3-6-9 The God Frequency... ..	77
Chapter 21 – Applications Now Being Accepted	80
A Song for Genius Creators.....	84

INTRODUCTION

The idea of a for-profit church has been in the ethers for a very long time, just waiting for us to tune-in and turn-on the Light. We have many religions on this planet, yet faith only knows one language; i.e., the language of LOVE. For millennia, churches have built large edifices to the glory of God, while poverty surrounds those so-called sacred buildings.

The idea of having a church with no physical walls or spiritual boundaries, and that lifts people up and into financial freedom and the abundant life, is not a new idea. Jesus taught his followers how to accomplish that two thousand years ago.

The Church of Profitsea is based on cooperation not competition. It is based on mentorship not follow-ship. Mentors teach the secrets of the kingdom by example. They reap a bountiful harvest from the seeds they sow. They are richly rewarded for the time and energy they spend sharing the secrets of the kingdom with others. This financial reward is passed along to those for whom they care deeply, in the form of a trust in perpetuity. The new heaven and new earth is built by engineers, entrepreneurs, and philanthropists. Money is only the Energy that is feeding the Idea.

The Church of Profitsea is about loving your neighbor and living life without fear, while achieving freedom (both spiritually and financially). It is not a sin to be wealthy, but it is a sin to tell someone else they cannot be. In this infinite universe, God has given us everything we need, to have everything we want, without taking anything away from anyone else. Those folks who understand how universal laws work, understand that *wealth is a mindset*. The Church of Profitsea was born on that premise.

Ideas are the currency of capitalism. The Church of Profitsea is more about mentorship than membership. The mentors in this church are the happiest, healthiest and wealthiest people on the planet.

(Matthew 13: 11-12) *“To those that have [the secrets of the kingdom] more will be given.”*

The mentors in this church understand the secrets of the kingdom, and they are surrounded by an abundance of ideas, which turned their lives into heaven on earth. They understand that the universal laws bless everyone—not just a chosen few. Membership in this church is not a lifetime commitment; *it is a commitment of lifetimes*. The members of this church understand the eternalness of their Being; thereby, they leave a legacy that the secrets of the kingdom are not a secret anymore.

There is nothing in the physical universe that was not an idea first. This material world is not material at all—and that is a scientific fact. This material world is the physical extension of *Pure, Positive, Non-physical, God-force, Source, Love-Energy*. We are the physical extensions of that *Energy*, we were born to be the deliberate creators of our own life experience. When we are not aligned with that *Energy*, we spiral into chaos and fear. To be HU-man (God-man) is to know you are in control of your own YOU-niverse. HU is the most ancient name for God, as we are made in the imagination (image) and likeness of God. The first thing Hu-man gives up when he finds himself in the grip of fear is his freedom.

In fear, humans relinquish their freedom to the illusion of safety. In fear, Humans become an ego whose only purpose is to “protect thyself at all cost.” This is not the ego’s fault. Humans have complete control over their own divinity and the thoughts they choose to focus upon. We are the creators of our own heaven or hell. Have you heard the saying, ‘when you point a finger at someone, four more are pointed back at you? No more blame games! It is not the ego’s fault. It is not the devil’s fault. It is not even the government’s fault. It is not your boss’ fault. It is not your mother’s fault. *There is no more fault.* There is only acceptance of the natural Laws of the universe and your place in it.

The Church of Profitsea was Made in America. The United States of America was the first country in the history of the world to proclaim that every individual was equal under the “Laws of Nature,” and that the innate desire of every individual is Life, Liberty and Happiness. We don’t have to “pursue” happiness; it is the Source-Energy that never stops flowing to us and through us. With every breath, the eternal desire for expansion flows like a river gathering momentum that will not be denied. Expansion is the evolution of Human. Human is constantly seeking higher ground, new vistas, and the path of least resistance to the kingdom of His own creation, in which he is guaranteed eternal life. Not *just* eternal life, but a happy, healthy and wealthy eternal life—*here and now.*

The registered logo for the church is a blending of spirituality and capitalism (The physical and the Non-Physical). The blue star and red stripes embossed in a version of the “Flower of Life” came from the colorized \$50 bill—In God We Trust. The Mission Statement was taken from a Nobel Peace Prize-winning banker, and the Statement of Belief is the preamble to the Declaration of Independence. We are the people—sovereign individuals blessed by the foresight of our ancestors to write a living, breathing document that all men are created equal. Everyone on the planet, not just in the United States, was born as equal partners with their Creator to mold the energy into a life of their own making. This evolved primer for the Church of Profitsea is also a living, breathing document. We are just beginning to show the world what God can do through us when we *believe.*

Let’s talk about the separation of church and state, which seems to be so important for many patriots? If God is omniscient, omnipotent, and omnipresent--and It is--how can God be separated from anything? The only thing the Church of Profitsea relinquishes by feeding its flock from its coffers is its tax-exempt status, and we joyfully give to Caesar what belongs to Caesar (Matthew 22:21; Mark 12:17; Luke 20:25). The bulk of the church’s income will be returned to the faithful as dividends for growing God’s Enterprise. Of course, financial blessings are merely the icing on the cake. The true blessings will be the happy and healthy relationships created as more and more Humans come to believe in their own divinity.

As of this writing, September 1, 2024, there are 8.1 billion beautiful souls on this planet. The new ones are coming in “cable ready.” They are here to take thought beyond where it has ever been before. They are not coming *from* us; they are coming *through* us. They are not here to be molded in our image. They are here to teach us how to use our imagination, which is why we need more babies. I’m begging you. Let them live! No judgment. I promise that you and your unborn child can both have what you want.

We are over 8 billion points of Light on this planet, and all of them are God. Every single point of Light is the genius creator of his or her own destiny. Every single point of Light is the center of his or her own You-niverse. Any Hu-man that comes to believe that he is *worthy* of all the blessings coming to him will prevail. It is a package deal. Why settle for one or two, when you can have it all? A heart filled with Joy, a body filled with Light, and a Mind that knows Its *Worth*. Sounds like heaven on earth to me.

Christ was not Jesus' last name. Christ is the Light. Christ is the “aha” moments in our lives when an idea comes to us that sends chill bumps up and down our spine. Those moments when we feel invincible. We are each adding to the evolution of this planet with every aha moment we experience. We are the physical embodiment of Christ Consciousness, raising this planet to an Apex unlike anything the world has ever seen. Its Light will be undeniable. Its fruit will be laughter and music and loving relationships. Its Truth will be self-evident.

I reiterate, this church is about mentorship. Everyone that joins, joins because they have something to give to the world—something wonderful. Our mentors feed us with their knowledge and understanding, and then point the way for us to live happy, healthy and wealthy lives. My mentors, for the most part, have been books. Einstein said, “Knowledge in books is lifeless. Knowledge in the consciousness of men is Life.” I have devoured self-help books, spiritual books, books written by icons in business, scientific papers, and thousands of quotes from mentors long gone in the physical world; I live and breathe their words of wisdom. There is no greater aphrodisiac to me than words jumping off the page, blinking like a neon sign, which sends chill bumps down my spine and allow waves of passion to explode in my heart.

Change is the only constant in a vibrational universe. In a vibrational universe, there is no right or wrong; there is only attention to a subject. I choose to focus on the positive rather than the negative aspects of life. The Law of Attraction supports my choices and enriches my life with more joy, a healthy mind and body, and more money than I need—*but not more money than I know what to do with*.

There are no limitations in a vibrational universe, and it *is* a vibrational universe! We can all be as happy, healthy and wealthy as we set our minds to be, because we *are* the physical extension of the very same Mind that set the stars in the heavens and caused the planets to revolve around the sun in perfect proximity to other planets. We are *worthy* of being called genius creators and blessed beyond measure.

Chapter 1

Einstein's Religious Cosmology

In my opinion, Einstein was not only a genius, he was also a true believer in the *natural laws of the universe*. The Law of Attraction is a *natural* law of the universe. When understood, it is as plain as the law of gravity. When understood, it will ensure that Humans will awaken to the realization that thoughts precede things as surely as the rain falls down—not up.

I discovered *The Teachings of Abraham*® in 2006. I had received my minister's license ten years prior, but the Law of Attraction kick-started my religious evolution. I began searching the World Wide Web for great minds to corroborate my belief, i.e., that religion, science and entrepreneurship were all leading the faithful to the land of milk and honey.

I found Einstein's thoughts on the subject: He said...

Religion without science is blind, while science without religion is lame.

"Everything is Energy and that's all there is to it. Match the frequency of the reality you want and you cannot help but get that reality. It can be no other way. This is not philosophy. This is physics."

Finding those words right on the heels of discovering the immutable Law of Attraction anchored my heart, mind, body and Soul into one Idea that would not be denied—Happy, Healthy and Wealthy was all about personal responsibility. I AM responsible for matching the frequency of the reality I prefer. It is how everything comes to me. I set my reality in motion by the frequency I practice most. We are all receivers and transmitters of energy, turning thoughts to things. Finding out during my research that Einstein and I shared the same birthday kind of rocked my world, too. Call it a boost of confidence, but I believe He is my Soul's mate, and with me always.

I received my License to Minister from Emanuel Bible College in Macon, Georgia, in 1997. I was a minister without a flock, and I knew why—it was Einstein's three stages of religion. I had outgrown stages one and two. The third stage was about to be revealed to me in a most emphatic way.

Einstein's three stages of religion are as follows:

First, is the religion of fear.

Second, is the religion of social and moral values.

Third, is Cosmic Religion.

I am not a fan of biographies that are written “after the fact,” which goes for the biographers of Jesus to the biographers of Einstein. I choose to believe, however, as one of his biographers wrote, that Einstein was devout in his religious beliefs as a child. He is quoted as saying that the purpose of his work was to see the face of God. I, too, was devout in my religious beliefs as a child. I also think that religious beliefs should and do evolve. So many people today are turning away from religion without recognizing that religion has always served an important purpose in this physical world of contrast (polarity). We wouldn’t be here without it. Today, more than ever, religion’s purpose is to free the Hu-man from beliefs that do not serve the greater good. There is no hierarchy in cosmic religion. The greater good for one always encourages the greater good for all. This is not martyrdom. It is Self-Realization.

The Church of Profitsea praises evolutionary science. The inquisitive mind never stops reaching for the stars. Why? Because they’re there. The journey of mankind has not been to reach some lofty goal—whatever lofty goal the human mind is capable of setting—because there will always be another goal to take its place. The journey of mankind has always been to *blaze* a trail—to go where no thought has gone before—so that others may *not* follow, but so that others might *see* that blazing their own trail is possible. It’s our legacy to think, to choose, to focus, to believe, and to receive. It is the most valuable legacy anyone could leave. This is the formula for Happy, Healthy and Wealthy: think, choose, focus, believe and receive. Thoughts are things—choose wisely.

Max Planck, who won the Nobel prize in physics in 1918, said:

“A new scientific truth does not triumph by convincing its opponents and making them see the light, but rather because its opponents eventually die, and a new generation grows up that is familiar with it.”

The same could be said for *spiritual* truth. The new generation arriving today are plugged into Source, and they are not conforming to anyone’s belief system. A perfect example of this is autism. There are a lot more examples; just look around. Non-conformists are everywhere, and we need more of them.

My poem on the back cover of this book says it all. “I will return again and again to give birth to a new way of seeing.” The Church of Profitsea is forming a global community where new ideas and new ways of looking at the world are thoughtfully considered and not shot down because they don’t fit the current paradigm. The Church of Profitsea has been taking little baby steps, one day at a time, for the last twenty-eight years, but it has never acquiesced to the status quo.

The scientific proof that physical dis-ease is a result of negative thoughts is here. Unfortunately, most people see themselves as victims. Dis-ease is not out of anyone’s control, but the more energy and money we pour into curing the incurable, the bigger it gets. “*Oh, see that horrible thing over there! Let’s throw money at it and make it go away.*” It doesn’t work that way. The more we focus on that horrible thing (whether it be disease, war, poverty or “sin”) the bigger it becomes in our experience, and the greater the FEAR becomes.

This Universe is based on attraction—there is no exclusion. Whatever we focus on expands. *We are that powerful.*

The Church of Profitsea is for all genius creators who want to be the writer, director, producer and star of their own success story. This is the never-ending story of desire, faith, passion and purpose. Freedom from fear is available to every man, woman, and child on this planet, which will usher in joy, wellness, and unlimited abundance. The only thing keeping us from experiencing joy, wellness, and unlimited abundance is our belief in *unworthiness*. That belief did not come into this physical body with us. It was programmed into our little mind by parents, charismatic teachers, so-called friends, books, movies, TV, and all manner of ways the mainstream media makes its way into our psyche today.

You don't have to croak to go to heaven. Heaven is right in front of you. Are you ready to have it all? Happy, Healthy and Wealthy is a way of life promised to us by the great metaphysician who walked the planet over 2,000 years ago. Billions of people had to come and go since then so that Wealth-Consciousness could reach the tipping point.

Here is a Definition of Tipping Point from Harvard Business College:

“In any organization, once the beliefs and energies of a critical mass of people are engaged, conversion to a new idea will spread like an epidemic.”

Wealth Consciousness is no longer relegated to the net worth of a few individuals. The Church of Profitsea is leveling the playing field. Everyone has within them the wherewithal to be happy, healthy, and wealthy, and the Universe agrees totally. Line up your frequency with unlimited abundance all around you (mostly in the form of ideas) and then watch the Law of Attraction rain down upon you all the cooperative components you need to make it so.

Let me take you on a journey as to what Cosmic Religion looks like to me:

In the beginning there was Light, which created the contrast that set the stage for the eternal, ever-flowing, ever-expanding Universe. Consciousness was born in the Light, and with it came *desire*.

Psalms 145:16

“You open your hand and satisfy the desire of every living thing.”

This is the flagship Bible verse of the Church of Profitsea. Desire is at the core of all manifested life. Without desire, there is no summoning of Life Force. It is our desire that fuels the flame of passion and carries us from moment to moment through this eternal soap opera called Life. I'm calling it a soap opera because I love the drama as much as the next person. Whether it is on the “big screen” or what we refer to as “reality,” drama is contrast. It gives us a starting point from which to choose. It feeds our fears and increases a desire for the superheroes—the saviors of the world—to come swooping in and rescue us from the evil that victimhood has wrought. This church is for the genius creators who take full responsibility for the creations that their own minds have wrought.

Everyone came into physical existence with an Internal Guidance System. Our Internal Guidance System is our Emotional Guidance System. E-Motion—Energy in Motion. We may not always know the thoughts we are thinking, but we always know—or should know—how we are *feeling*. Feelings such as fear, depression, anxiety, worry, guilt, and anger let us know that we are *not* aligned with our True Nature—our God-Self.)

The Law of Attraction manages all vibrations. Thoughts are things, but it is our emotions that call the Life Force to us and through us, which is why the emotional guidance system is our best friend. It lets us know in which direction we are pointed.

In the same way those negative thoughts wreak havoc in our lives, our thoughts of joy, peace, love, generosity, enthusiasm, positive expectation, to name a few, generate a life experience we call heaven on earth. We are the creators of our own life experience—one thought at a time. To quote Carl Jung, another notable genius in heart, mind, body and soul:

**“There can be no transforming darkness into light,
and apathy into movement,
without emotion.”**

I would like to elaborate here on the 3 stages of Einstein’s evolution of religion, since I really believe his Cosmic Religion is the foundation of this church. If we were all to bend a knee to ONE religion, it would be the end of humanity as we know it. There would be no more freethinkers. Without the human discourse and proliferation of new ideas, we would literally cease to be. This is why the Church of Profitsea embraces cosmic religion. It recognizes the uniqueness of sovereign individuals. With a strong focus on trusting Universal Laws to keep the expansion of this Universe headed in the direction of unprecedented peace and prosperity, while allowing for human discourse regarding beliefs and moral values. Live and Let Live is another way of saying, “*To thine own self be true.*”

The Church of Profitsea is raising an evolved family of humankind. A family Barbara Marx Hubbard called Homo Universalis. Sometimes siblings have to strike out on their own and go against family values. Unconditional Love does not condemn. This is when the non-physical counterpart of that family member assures us that All Is Well. We can’t get it wrong because we never get it done. We are eternal vibrational beings here in this magnificent world of contrast to experience Life, which can only be done through our magnificent bodies and our emotions.

Revel in the Spirit of Freedom and do not compare bodies. There’s no comparison. There will never be in all eternity another YOU.

Chapter 2

The Entrepreneurial Spirit

The Church of Profitsea was Made in America for the Entrepreneurial Spirit. What is an Entrepreneurial Spirit? Entrepreneurial Spirits are not born; they are developed. Entrepreneurs emerge through life experience. They have a strong desire for freedom and autonomy. The entrepreneur is a risk-taker, a trailblazer, a barrier-breaker, and a fundamentalist for capitalism in a world where desire meets knowledge and clarity prevails. There is nothing more captivating than a person that knows what he wants. This is where the heart and mind join to lift the body above the crowd and proclaim, “*I can do this.*”

In 2006, Muhammed Janus won the Nobel Peace Prize. Mr. Janus was a banker who believed in entrepreneurs. Here is his quote, which inspired the Church of Profitsea’s Mission Statement:

“Charity is not an answer to poverty. It only helps poverty to continue. It creates dependency and takes away individuals’ initiative to break through the wall of poverty. The unleashing of *energy and creativity* in each human being is the answer to poverty.”

Imagine, a Nobel Peace Prize going to a banker. What a concept! Could it be that peace and prosperity go hand in hand? I believe they do. The mission statement for the Church of Profitsea came from this banker’s vision.

Church of Profitsea’s Mission Statement:

Unleashing energy and creativity in the lives of individuals for the purpose of increasing opportunities for wealth and well-being in the world.

My entrepreneurial spirit was unleashed in 1996 as a distributor for a network marketing company called The People’s Network. TPN had a satellite television network devoted to positive programming.

Prior to joining TPN, I was working toward my dream of becoming a Unity Minister. I was returning to Florida from Phoenix, Arizona, where I had just received my Bachelor of Science degree in Business Administration. The only reason I went to school for my Bachelor’s degree was because I was told that my chances of becoming a Unity Minister were slim-to-none if I did not have a degree. I was forty-eight years old when I received that degree, which shoots down the belief of so many that “*it’s too late for me.*” It’s never too late to chart a new course and become more than you ever thought you could be.

Unity Church was a positive path for spiritual living, whereas TPN was a positive path for living... period. **This was my revelation:** *I know a lot of spiritual people that are too spiritual to be rich, but I don’t know any rich people that are too rich to be spiritual.*

This is the state of mind I was in when the *idea* for the Church of Profitsea came into being. In an instant I could see that my ministry was to spread the good news that God has given us everything we need, to have everything we want, without taking anything away from anyone else. Every individual, without exception, can convert that Life Force Energy into heaven on earth. This is where spirit and materialism join forces.

Even though I was in a multi-level-marketing company, I realized it had nothing to do with marketing—or money. To me, *MLM stood for Making Love Manifest*. It was a way for the faithful to literally get rich by loving their neighbor. My teeth vibrated for a week with the vision of a church that would lift the faithful above the false premise that poverty was the *way* to spirituality.

In 1997, The People's Network sold out—literally and figuratively—to Pre-Paid Legal. I was devastated. Everyone in the People's Network was expected to jump on the Pre-Paid Legal bandwagon. It was an eye-opener for me, and the reason I have not been involved with a network marketing company since. It did not deter me from believing in the Church of Profitsea and MLM, however. In the Church of Profitsea, the product we are marketing is Self-Realization.

After leaving network marketing, I set my entrepreneurial spirit free to look for opportunities to increase my Self-worth and my net-worth at the same time. I no longer saw any reason to separate those two aspects of my life. TPN had done that for me. Happy, Healthy and Wealthy had become my mantra. Money is *only energy*, and I was setting my frequency to include all the happiness, well-being, and wealth I was capable of. Capability follows life experience.

I have always been an accumulator of life experiences—not *things*. When I think about my past, and the financial limits I set on myself, I am reminded that I may not have had a lot of money in the bank, but everything I wanted came to me. Just like deciding I was going to get a college degree without having any idea how I was going to pay for it. I found a position with a company that paid for my college education—desire... believe... receive.

It is more important to believe in yourself, and your ability to create the life experiences you want, than it is to worry about the resources it will take to have those experiences. My belief in unlimited resources, resources that come from Source Energy—not a job—set the stage for my entrepreneurial endeavors. Even when I was earning a paycheck, I started seeing opportunities to increase my Self-worth and my income at the same time. A perfect example of that was taking a job as a secretary for the City of Titusville in the economic development department. Six years later, I was Interim Director of the economic development department and had created a program called, EDEN, an acronym for Economic Development Entrepreneurial iNitiative. I also acquired a master's degree in public administration during that 6-year period, which the City of Titusville paid for. Life is so good when you know who you are and what you want.

I was happier at this time of my life, doing what I loved, and making more money than I ever had in my life. But the Universe said, “You ain’t seen nothing, yet.” The department downsized and the EDEN program was cut. I was offered a promotion but with EDEN gone, my heart was no longer in the City of Titusville. I resigned my position without having any idea what the next step was for me. I have always walked in Faith. Today I know that walking in faith is a mark of a successful entrepreneur.

The Church of Profitsea is based on the premise that Everyone’s an Entrepreneur

Contrary to some beliefs, the *Law of Attraction* is not about winning the lottery, although you should always be open to all possibilities. It’s not about having your own personal genie granting your every wish, although the Universe feels like my own personal genie sometimes. The Church of Profitsea is for people who want to *work*. Kahlil Gibran, a Lebanese poet born at the turn of the 20th century, wrote a book called, “The Prophet.” A must read for anyone on a spiritual path. He wrote: *Work is love made visible. Those who do not work with joy should go and sit by the temple gate and take alms from those who do.*

This church is about Profit... literally and figuratively. Profit is synonymous with creative ideas and creative ideas come to those who have prepared themselves to receive. In other words, those who know they are *worthy* of creative, profitable, and innovative ideas will succeed in whatever endeavor they choose. **Worthiness is not earned. It is not even a gift. It is inherently what we are.**

The mentors in this church are all about incubating ideas... nurturing them... loving them... letting them move from thought to thought-form, and then to physical manifestation, *without any resistance*. Resistance is doubt. Resistance is fear. Resistance is taking action before the energies are aligned. Abraham, my most profitable mentor, always says, “Take inspired action.” When you act on an impulse that comes from fear instead of inspiration, you won’t like the outcome.

No one is powerless in this church because we know who we are. We are the physical extension of Pure, Positive, Non-physical, God-force, Source, Love-Energy. Because we know who we are, we attract others of like mind. The Law of Attraction makes it so. It is the most powerful law in the universe. The entire universe is vibrational in nature and the Law of Attraction is the manager of all vibrations. If you do not understand how things are coming to you, then it is natural that you would feel insecure, worried or anxious. Understanding how the Law of Attraction works puts you in the driver’s seat.

In this church, we turn those negative emotions into catalysts for improvement. We know what we don’t want, so we turn our attention to what we *do* want. The Law of Attraction does the rest. We are the thinker and chooser. *Faith, Focus and Freedom* is another trinity for raising the Christ consciousness to the next Soul level.

If you do not have any innovative, creative ideas to turn into a business, then go to work for someone who does! Our mentors will guide you, but they cannot do it for you. They will encourage you to be on a path that fulfills you. Get caught up in the excitement and passion of turning an idea into brick and mortar. Add your power to it and become an integral part in the creation of a business that benefits so many people. *It could even be a not-for-profit business!* Philanthropists see a need and fill it, just like entrepreneurs.

Say to your prospective employer: *I take full responsibility for my attitude and my actions. I work for the joy of working and producing a product or service that benefits everyone. I work for the exhilaration of freedom and growth. I am free to work for anyone I choose, and I choose to work for you because I believe I will receive the most growth from this position. You will not regret hiring me.*

You will be rewarded according to your belief in your worth and the passion with which you perform your duties.

A message to employers: You have a responsibility to your employees to listen to their ideas, challenge them to their fullest potential, and reward them accordingly. Without them, you have no business—that's why they call it Human Resources. Give from your abundance. Your customers will thank you for the incredible products and services you offer, but it is your employees who deserve *your* thanks.

Consciously connecting to my Inner Being (Soul, Higher Mind, Source... a rose by any other name....) is the most valuable gift I ever received in my life, and it can be received at any age.

I really see the Church of Profitsea producing the world's greatest entrepreneurs, as well as the greatest philanthropists.

Chapter 3

The Breakthrough

Knowledge in action. Though we may read a book or take a course, the knowledge we gain is truly formidable when it is applied to our lives. It is the doing and the repetition of doing that makes us experts in any domain. Learning how to become the deliberate creator of our own reality is no different. Everyone is creating their own reality, but to do it deliberately, and to take responsibility for the reality we have created, is entering uncharted territory. Everyone has the same opportunity to become better at creating their own reality when the knowledge learned is put into action on a daily basis.

Between 2012 and 2016, I quadrupled my income by living the principles that the Church of Profitsea stands for. I was not proselytizing my religion; I was teaching by example. I became a licensed real estate agent, and felt the thrill of thriving and tithing my way to happily-ever-after.

In 2015, I returned to Unity Church. I was still evolving, and so was the Church of Profitsea. I still believed the Law of Attraction was the most powerful Law in the Universe, and Unity's *Law of Mind Action* was in perfect accord with my beliefs. I didn't see any reason to reinvent the wheel, so my dream of becoming a minister to entrepreneurs slipped slowly into the background.

Unity has classes for individuals seeking more out of life. It's called SEE (Spiritual Education and Enrichment). It's a series of twenty-five classes that can be taken in person or online. In 2016, I decided to take these classes with the intent of becoming a Licensed Unity Teacher. One of the SEE classes I took was on The Background of New Thought.

Over a hundred years ago, between 1904 and 1909, Thomas Troward wrote *The Edinburgh Lectures on Mental Science*. You can find and download this book in PDF form on the internet. Here are a few excerpts from his writings:

“It is a mathematical truism that you cannot contract the infinite, and that you *can* expand the individual; and it is precisely on these lines that evolution works.”

“We cannot account for the things that we can see unless we assume the existence of other things which we cannot; and the “vortex theory” is one of these assumptions.”

One hundred years after Thomas Troward wrote those words, a book was written about the vortex: *The Vortex, Where the Law of Attraction Assembles all Cooperative Relationships*, by Jerry and Esther Hicks and *The Teachings of Abraham*®

Every thought that has ever been thought still exists, and the Law of Attraction will continue bringing like-minded people together... forever.

There are many, many spiritual teachings in the world, and they are all as true as you want them to be. The powerful Law of Attraction makes it so. Whatsoever you believe will come to pass—that's how much you are loved. We are given all power in heaven and earth to create the reality we choose. *Ask and it is Given.*

Back to Unity's SEE class. I was fortunate enough to take the class, *Background of New Thought*, with the Reverend Dr. Nickie Golden. On the first day of class, Rev. Nickie asked us to list the New Thought pioneers who meant the most to us, and she wrote the names on a whiteboard as we called them out. The list began with Jesus (Heaven knows he was a radical thinker in his day.) When the list was exhausted, she asked, "Does anyone here want to add their name to this list?" Without hesitation, I walked to the front of the room and added my name to that list.

Tears well up in my eyes just remembering that moment.

I realized at that moment that I had never thought of myself as a leader. From the moment the Church of Profitsea was born, I had been waiting for someone else to get its powerful meaning and run with it. That is the reason it took twenty years to bring it to this point. I was not ready.

It was during this week of SEE classes, at Unity Christ Church of Orlando, that I became a walking affirmative prayer. This is the week I discovered the book, *How to Pray Without Talking to God*. It was during the class on Unity Prayer, led by Rev. Mindy Tucker, that I learned how to pray from my Source of power. I was blessed with two great teachers that week, and as a result, I returned home knowing that this book *had* to be written.

This is a living, breathing, ever-expanding, ever-evolving story. Your story is monumentally important to the WHOLE. Write of your own breakthrough. Maybe you have had more than one. Write about the moments, or events, that rocked your world and catapulted you into another dimension of consciousness. And don't be afraid to share your story with others. Don't be afraid to BE who you are.

Chapter 4

The Great Divide

What is the Great Divide? It is the chasm between the “Haves” and the “Have-nots.” It has been the belief since the beginning of time that what’s “out there” is better than “what’s in my life.” There is no greater example of this chasm than money. We look around and always find someone that has more of it than we do, and then we feel the lack of it. Feeling the lack of it sets up the vibrational setpoint that brings more lack into our lives. This is a chasm that Hu-mans *can* overcome. It takes belief. So, let’s look at the belief around money.

What is money? The following three definitions come from *The Teachings of Abraham*.

“Money is one of the purest forms of energy there is because money is energy in *potential*—it can be a seed, and if used positively and proactively, it can reveal enormous Light.”

“Money’s only purpose is to express appreciation. It is the most expansive energy that we can express, and money is delighted to be the tangible expression of that energy.”

Finally, “As money flows in and out of our experience in joyful appreciation, let us be clear that it is not the source of our abundance nor is it a measure of it. Money is just one of the infinite ways we create to express appreciation.”

To believe or not to believe... it is your prerogative.

My father had a favorite word to express his disagreement. It was “Malarkey.” Webster’s defines it as “foolish words or ideas.” I think the modern-day synonym would be “Bullshit.”

To dismiss a person’s words or ideas as malarkey is common when those words or ideas are foreign to a person’s belief system. (Look how long it took mass consciousness to come to terms with the fact that the earth is round.) The idea that we can be, do and have everything we want, without taking anything away from anyone else, seems ludicrous to the mind that believes resources are limited; however, I live in an abundant Universe that delights in expressing Its *limitless supply* through me. Everyone’s truth is valid. The Law of Attraction makes it so.

It is the intent of this chapter to stretch the limited mind to include the Infinite Mind, which is the Source of All-That-Is. It is the Source of happiness; It is the Source of health, and It is the Source of wealth. Money, like its Source, is limitless! Genius creators exchange this magnificent energy of money in the form of value received and value given. Self-worth can easily translate to net worth, but net worth does not necessarily translate to Self-worth. Persons believing resources are limited can easily convince themselves that “He who has the gold makes the rules.” Nothing could be further from the truth. Rules can be broken; Universal Laws cannot. We are each the

ruler of our own kingdom, and the mark of a successful ruler is in the fruit the kingdom produces.

The Church of Profitsea is for every Entrepreneurial Spirit who knows that wealth is not something *earned*; it is something conjured, appreciated, and shared. A shared happy, healthy and wealthy thought expands into the Universe, drawing more thoughts like it unto itself—happy, healthy and wealthy is an idea whose time has come.

The Great Divide is all about Belief. This is the “rock” on which Jesus built His church, and on which the Church of Profitsea was born.

Quote: “He said to Peter, ‘Upon this rock I will build my church’” (Matthew 16:18). The emphasis in that Bible verse should be “Upon this rock,” not the church. What is the Rock underlying religion... all religions? The Rock that underpins all diversity in the universe is BELIEF. It is the reason there are so many religions. Believe in One’s Self... the Whole Self... and the larger, broader, unified Self. Only those who hear the call of greatness from within will move mountains. Self-Centered desire (With a Capital “S”) is at the core of evolution. It is at the core of all manifested life—and it is good.

There are five major religions in the world: Christianity, Hinduism, Buddhism, Islam, Judaism. Recently, “New Age” has been added to that list; I prefer to call it “New Thought.” I have always considered myself a Christian, but fundamentalist Christians would probably call me a heretic. There are over 1,200 sects of Christianity alone. My maternal grandmother was Jewish, so that also makes me Jewish... something else I relish knowing. I know it’s silly, but it brought me closer to Einstein. We are truly a diverse people who believe passionately about how life ought to be lived. The Church of Profitsea honors the individual Spirit.

I *believe* in the reality of my dreams. I *believe* in the Life Force that takes my every desire and turns it into reality. I *believe* so strongly and passionately that not only have my dreams come true, but they have manifested themselves in such a way that will inspire others to hold fast to their belief in the Power that created the Universe. That same Power flows through the mind, heart and soul of every individual on this planet. If anything, the Church of Profitsea is a religion based on *Belief*, and Its most powerful tenet is that everyone is getting what they believe. It is Law.

We don’t remember every desire we’ve ever had, but our Inner Being remembers everything. Mostly, we just want to be free from our fear, *but that thought just keeps us bound to fear*. The Law of Attraction is not a man-made law. It was set in place by the Law of Love. There is no Law of eternal punishment. There is no law of retribution. There is only a *belief* that we could be separated from Love. There is no Law of disease, or powerlessness. There is only a *belief* that we could be separated from our Source of Well-Being. There is no Law of poverty. There is only a *belief* that we could be separated from the unlimited abundance all around us.

As we bring our hopes and dreams into our powerful *now* and revel in the intelligent forces responsible for turning our thoughts into things, and if we don’t kill our dreams with feelings of inadequacy and *unworthiness*, we become the genius creators of our own heaven on earth.

The teachings of the Nazarene emphasized this over and over again. When you pray, pray believing (Matthew 21:22). It is your faith (belief) that made you whole (Matthew 9:22) (Mark 5:34) (Luke 8:48). You can move mountains with your belief (Mark 11:23). Ad infinitum. Paul, of Tarsus, is the *real* reason that Christians have a religion at all. He wrote about the power of belief over, and over, and over again, while he continued to labor in love.

It matters not what you believe. It is time to wake up to the fact that your entire life, and every experience in it, is a product of your belief system. Even babies are born with a vibrational setpoint. It is not words that the Law of Attraction is responding to—it is our vibrational setpoint. There is a correlating emotion to every thought. Babies are not “thinking” with words, but they are emitting a vibrational request for what they want.

The power of influence is a major player in our lives, but no one can think for us. Everyone’s point of attraction is uniquely their own. The blame game needs to stop, now.

The Church of Profitsea is ushering in a new Trinity: Happy, Healthy and Wealthy. Most people have no problem with the happy and healthy part, but wealthy raises embedded beliefs, both theological and secular. It is my desire that this book will shed some Light on beliefs that could be standing between you and the abundant life that you came here to live. *Until we begin to question our beliefs, we will never rise above the poverty line we built inside our own minds.*

Just as love, appreciation, joy, wholeness and abundance are the essential ingredients for creating heaven on earth, so too will blame, guilt, doubt, resentment and fear lead us down a path we don’t really want to follow. Once we decide to take full responsibility for our own well-being and prosperity, there’s no turning back. I know.... I’ve tried.

As Oliver Wendell Holmes said, “A mind, once stretched by a new idea, will never regain its original dimension.” The main *idea* behind the Church of Profitsea was that you can get rich by loving your neighbor. Why is that a *terrible* idea? Have you ever done a favor for a neighbor and when they tried to pay you for it, you were insulted? THAT’S WHY! Humans see loving your neighbor as a selfless act. When money enters the picture, it becomes a selfish act. That belief has to be challenged. Every cent in my pocket is a gift from the Universe. And I love spreading the wealth.

The Great Divide is the chasm between our beliefs about who we think we are and the *actuality* of who we truly are. The Church of Profitsea is all about Self-Actualization. Until humans start believing in their own Divinity, there will always be a gap between where they are and where they want to be. Happy, Healthy and Wealthy is a state of Mind before it becomes a full-blown physical manifestation.

Here are three Exercises to examine your Beliefs Around Money:

Exercise 1: Everyone is unique when it comes to their relationship with money. The purpose of this exercise is to create a relationship with money that is as loving and fluid as your relationship with the air you breathe. You do not wake up in the morning and take three huge, deep breaths for fear someone else will get your share of air, do you? Believe it or not, there is as much money to go around as there is air to breathe.

Take time to write down your beliefs around money. Are they serving you? Be honest. The only way an erroneous belief can be changed is by acknowledging its existence. Take your time. Go through your day or days and be an observer of your thoughts around money. If you are envious of others, you are pushing money away from you. If you are focused on the lack of money, you are pushing money away from you. If you feel superior to “rich” people, believing that *money is the root of all evil*, then you are pushing money away from you.

Exercise 2: One more point about the Great Divide. You will never have more money than you believe you are worth. How much do you believe you’re worth? Why? Is it your education? Is it your skill set? Is it your ability to see things that are not there and create kingdoms where there used to be a wasteland? Or Is it your *knowing* that you were endowed with a mind that can turn thoughts to things. **Worthiness is not earned. It is not even a gift. It is who you are.**

Exercise 3: Write your positive affirmations around wealth and money. Remember, affirmations only work if you believe them. Saying something you do not believe works against you, and you will fall by the wayside like a weed. The Affirmation must come from your Inner Knowing. The closer you get to the Inner You, the happier, healthier and wealthier you become. Mindfulness is the easiest way to get to the Truth of just how worthy you are. Meditation releases the small mind and connects you to the Higher Mind.

I recently found a book written by Rabbi Daniel Lapin. *Thou Shall Prosper*. Jesus is still a Jew. There is an anti-Semitic belief around Jews and money. I would suggest reading this book to shed some Light on the mindset of the Jew and money.

Chapter 5

How It Works

This chapter is dedicated to all the friends I haven't met yet in Alcoholics Anonymous. My hat is off to you. If you have managed to stay clean and sober for a year, you are well on your way to becoming a deliberate creative genius. If you have stayed clean and sober for five years, I bet you're feeling pretty darn good about yourself, your life and your future. If you have stayed clean and sober for ten years, you're probably starting to wonder, "Is that all there is?" That's what happened to me, anyway.

Nothing is more debilitating to a genius creator than sameness. The joy of creating comes from thinking outside the box (or outside the twelve prescribed steps that one is supposed to walk forevermore). The joy of creating comes from taking thought beyond where it has gone before. The joy of creating is blazing new trails—not walking the same trail over and over and over again. So, before you go off the deep end and die of monotony, or worse. The following are the 12 Steps I wrote for self-actualization.

Step 1 – I am the creator of my own life experience.

I have always had complete control over my thoughts (beliefs are just thoughts we keep thinking). Sometimes, the thoughts in my head were racing so fast and furious, and they seemed to be in total opposition to what the rest of the world was thinking and believing, that ingesting a mood-altering chemical appeared to be the path of least resistance. And it worked for a while.

How many times have I thought, if I didn't laugh, I'd cry? Well, if I didn't drink, I'd die. For me, alcohol saved my life for a greater purpose, and AA gave me that purpose; i.e., to find a God of my own understanding.

Step 2 – I recognize there is only one Power in the universe, and I am the physical extension of that Power.

There is no Source of darkness. There is only an absence of Light. There is no Source of evil. There is only a mind that does not know its own Source. I am the physical extension of Pure, Positive, Non-Physical, God-Force, Source, Love-Energy. That's what I AM. When I am aligned with Source Energy, sanity prevails.

How many times have I thought I was not normal because I danced to the tune of a different drummer? How many times have I tried to fit into my surroundings instead of attracting the surroundings that fit me? This day I proclaim to the world, "I AM happy, healthy and WORTHY, and I will not apologize for it.

Step 3 – The Power of Will is the Strength to abide in Love and Appreciation of Self.

What is God's will for me if it is not my own? Is God a Being that hides Its will from me and treats life like an Easter Egg Hunt? Would such a Being be called Love? My will is done on earth as it is in heaven. My will is always for my highest good. I cannot judge another's will, and another cannot judge mine.

Sometimes my will for my highest good is in direct opposition to another's will for me. I do not give up my sovereignty to do the will of another. I am the designer and diviner of my life experience. To choose another's will over mine would be blasphemy.

Step 4 – There is nothing lacking in my life.

This abundant universe is overflowing with everything I have ever asked for. It is all there. It is waiting for me to go within and receive. Today I learned to tap into the vibrational reality that precedes everything physical. Today I reach for the best in me and release everything that is holding me back from realizing my full potential.

Why would I ever focus on lack? Why would I ever focus on what's wrong with my life? Those thoughts set up a vibrational setpoint that cannot be overcome until the momentum subsides and I get to choose again. Today I choose freedom from the past.

Step 5 – I share only what I want to see expand in the world.

This is a universe of attraction—nothing is excluded. All thoughts draw other thoughts on the same frequency into the realm of awareness and consciousness. Sharing stories of pain, guilt, blame, or other characteristics that have nothing to do with the sovereignty of my Being, only binds me to those characteristics and to the people I share them with. The past is gone. There is nothing to forgive in this new instant, which is my eternal triumphant ascension.

Step 6 – I am the sole creator of my character.

I am the writer, director, producer and star of my own soap opera. Or, I am the writer, director, producer and star of my own success story. My character is of my own making. If I don't like the character I've created, I can fire it and create another one. Diversity is such a wonderful thing. Wouldn't life be boring without a desire for improvement? Actually, without the desire for improvement, life would cease to be. *That is the nature of evolution.*

Step 7 – There will never be, in all eternity, another me.

There is no need for humility—ever. I am the Light of the world. Not believing that doesn't make me humble—it makes me clueless.

Step 8 – God does not forgive because God has never condemned.

Does that mean we should never say, “I’m sorry”? No, it doesn’t. Whenever I feel the need to apologize, it is because I want to make a perceived wrong, right. The perception could be totally one-sided. But forgiveness is for the asker, not the giver.

Step 9 – A path to Enlightenment

True enlightenment comes when one recognizes there was never anything to forgive. The victim and the victimizer are on the same vibrational frequency. There is no apology necessary when I recognize the nature of reality, and who is creating the chaos, and who is responsible for choosing peace.

Step 10 – Enlightenment is not like a college degree—once you get it, it is not yours forevermore.

The best we can do as a *blended being* is to be diligent in our quest to be happy, healthy and wealthy, without sacrificing our basic tenet, which is freedom. Popping in and out of sainthood is not the goal. The goal is to recognize that there are no saints here—only individual points of Light, each with his or her own perspective as to what constitutes a good life. *I shall not force my definition of the “good life” on anyone else.*

Step 11 – My every thought is a prayer. Worry is a prayer for what I don’t want.

A state of meditation is preferred over prayer, unless one has mastered the art of “Affirmative Prayer.” Most prayers are boomerangs for depression, ill health, chaos and poverty. The Universe always returns to me the vibrational equivalent of the frequency I am emitting. Praying from a place of “need” is not the frequency I want the Law of Attraction to get ahold of.

Meditation is the space I create, which allows joy, wellness and abundance access to my world.

Silence is paramount to all the prayers ever prayed. In Silence, I rise to the frequency of my Christ nature. In Silence, my desires are vibrationally received. In Silence, unfathomable joy flows through my consciousness, leaving no room for fear or doubt. My vibration rises during meditation, during sleep, and during times of inspired action. When I am doing what I love and loving what I do, I create a space for more joy, more wellness and more abundance in my life. There will never be a saturation point for happy, healthy and wealthy.

Step 12 – Words do not teach. We teach by example.

No matter how much I want to impart my life experiences to others to make their way straight and their burden light, I cannot. It was never the intention for any *blended being* to do for others what they can do for themselves. We are each here for our own joyful participation in creation. We cannot create in anyone else’s experience. We can be a powerful influence, however, but sometimes that is not a good thing. Be aware of students who want to emulate you, without doing their own work.

As our paths converge, remember our time together is fleeting, and the joy truly is in the journey. Do not make anyone your savior, which is a burden no one should bear. Recognize salvation as freedom. No Hu-man can bestow that freedom on us. It is our birthright. It is our Divine Nature.

This whole chapter was written for those friends of mine in AA that I have not seen in 48 years. I know from first-hand experience that when someone leaves AA it is automatically *assumed* that they have returned to their addiction and will wind up either dead, in jail, or institutionalized. This is just my way of saying don't let your fears rule your life. Are you sober today because you want to be? Or are you sober because you're afraid not to be. Your answer will explain the quality of your life.

Chapter 6

Death is the Bogeyman

Believing that the Bible is the *only* word of God denies a person access to the fullness of what religion has become. The evolution of religion is also the evolution of consciousness. There are so many religions in the world because God is a vibrational frequency, and everyone gets to interpret that frequency for themselves. It is all about perception, and perception is the only means by which we choose between what is wanted and what is not. The Church of Profitsea honors everyone's God—the God of their own understanding. I see every religion thriving in the Church of Profitsea—even the religion of atheism.

The God of my understanding is the “Invisible Hand” that penned the book, *An Inquiry into the Nature and Causes of the Wealth of Nations*, written in 1776 by Adam Smith. The God of my understanding also penned the Declaration of Independence, written the same year.

We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness.

“Give me liberty or give me death?” **I believe it is the fear of death that erodes our liberties.**

God-Consciousness is forever expanding in the hearts and minds of men and women through their desire for freedom. It is the foundation of our existence. We have always been free to choose our own path. We are so free we can even choose bondage. The Church of Profitsea is offering a new paradigm. We have a new vantage point from which to expand our intelligence and create heaven on earth from our imagination—literally—from sea to shining sea.

I wanted to call this chapter, “Message from the Tomb,” because the message behind Jesus' life, death, and resurrection, is not about forgiveness of sins. The message was, and still is, that there is only Life, and that death is an illusion. Death is the Bogeyman.

Did you know that when Thomas Jefferson was elected president, there were people burying their Bibles in their backyard because they believed he was going to ban the Bible? There is freedom *of* religion and there is freedom *from* religion. It is time for religion to catch up to where God is, because God is not in the dead past. I am not a fundamentalist and that is mainly BECAUSE of the following verse:

Jeremiah 31:33 “I have placed my Law in their minds and written it in their hearts.”

This verse is also found in the New Testament in Romans. Another reason I am not a fundamentalist is because of the Universal Law of Polarity. In every particle in the Universe, there is “wanted” and “unwanted.” There is good and there is bad. The Bible is a perfect example of that Law. This verse is telling us to look inward for the Law—not outward. Go ahead and read everything you can but discern the true meaning by going within. There's a lot of fear-producing fruit in the Bible.

To quote Abraham-Hicks, “The freedom I am seeking is freedom from vibrational discord, which is always self-imposed.”

I have set myself free from the religion of fear. I have seen the future, and it is bright and beautiful. There is no apocalypse looming ahead of me, because as much as the Chicken Littles of the world continue to proclaim: “The end is near,” God is still Love—always has been, and always will be—and Love never ends. And it certainly wouldn’t end us! We are Its eyes, ears, tongue, hands, and feet.

We are all eternal, vibrational beings—the physical extensions of Source Energy, which is only Love. These bodies were never meant to go on forever. Whether we’re here for a week, a year, twenty years or seventy years, everybody that croaks does so in full accord with its Soul. I and my Soul are inseparable—from birth to infinity. A person could spend their entire life never giving God any credence whatsoever, but at the moment of transition, it is always a joint agreement. Whether it be instantaneous, or a long, drawn-out process of saying good-bye, the Individual is always in charge—and Source always agrees. If we create our own reality (and we do) doesn’t it make sense that we would also create the way we transition from physical body to Light Body?

Pro Life? There is nothing else! We are always alive and alive and ALIVE; through all the incarnations we choose. And we do not bring any baggage with us when we joyously jump into these fresh new bodies, with fresh new perspectives, eagerly looking forward to shaping our world according to our desires. Some people want to dredge up the past to explain their pain in the present. There is no past. All the pain we experience today is a direct result of the thoughts we are thinking NOW. Granted, some are habitual thoughts that we have been thinking for a long time, but we are still thinking them NOW.

This is the truth I came to as I was experiencing thoughts of martyrdom. My thoughts on martyrdom is that every death is a suicide. At the moment of death, we leave behind our beautiful human bodies for the reality of Oneness. As we leave these bodies, we leave behind all pain and suffering, all fear and doubt, and we reemerge with All-That-Is. Pure, Positive, Non-Physical, God-force, Source, Love-Energy. Then we keep coming back to this leading-edge time-space reality because creation is so much fun. This is the Leading Edge of Creation. This is as good as it gets, until the next thought preempts the last, which makes it even better. This is the nature of evolution. This is the joyous expansion we came to be a part of. This is the adventure we signed up for. Humans create martyrs to edify suffering. STOP IT. Pain is inevitable. We knew it before we agreed to incarnate as a body. But there is no excuse for suffering.

Source is Energy. Creation is the physical extension of that Energy. Creation manifests in the perceivable—the smell it, hear it, taste it, touch it, and SEE it reality—and we are Co-Creators with that larger, broader, Non-Physical part of ourselves. It does not matter what you call it. The Non-Physical creates with us and through us, and it is our desire, our focus, our asking, our believing, and our getting out of the way and **receiving** that makes it so much fun. There is no death. There is only a continuation of desires and dreams, which can all be realized here and now. We don’t have to croak to merge with our desires. We can have them now—the moment we quit doubting and start believing.

As a homework assignment in college, I had to write a Villanelle. Dylan Thomas' poem, which begins: "*Do Not Go Gentle into that Good Night; rage, rage against the dying of the light,*" has been critically acclaimed as probably the best Villanelle ever written. To those who have ever lost a loved one, Thomas's poem probably ignites a passion in you to keep your loved one from death's door, but I know our loved ones never leave.

The following Villanelle I wrote is a rebuttal to Dylan Thomas' poem:

Go softly through that gentle night,
Into the final close of day,
Beyond the dream to Perfect Light

Let Truth endow your sightless sight,
While vision does the Mind portray,
Go softly through that gentle night.

Allow the Peace to quell the fight;
There is no dragon you must slay
Beyond the dream to perfect Light.

A Joy explodes within you bright,
There are no shadows in the way;
Go softly through that gentle night.

Tis Love that lifts the acolyte,
To heights beyond their Passion-play,
Beyond the dream to perfect Light.

The angels call beyond the height;
Rejoice it is Ascension Day!
Go softly through that gentle night,
Beyond the dream to perfect Light.

As a human race, we need to take our focus off the hows and whys of death and put it on the Life that is forever unfolding before us. The Light that is our loved one never goes out. Anyone in communion with the Light knows that is true.

Chapter 7

Happy... Healthy... and Wealthy

Mind/Body/Spirit

It's just another Trinity; they are everywhere.

Happy, Healthy and Wealthy proceeds from point A to point B, to point C, whereas it is usually perceived as the other way around. Most people believe they will be happy when...! When they have more money... When they have true love in their life... When they are free from debilitating diseases... When they land that cushy job... It goes on and on and on... seeking the “condition” before accepting the “cause.”

I am going to use a very old, worn-out cliché here. It has been around for a long time, and most people that say it usually don't believe it: “Happiness is an Inside Job.”

Proverbs 17:22 “A Happy Heart is Good Medicine”

Happiness creates a healthy mind, and a healthy mind is open to receiving ideas that produce a healthy body, and a healthy mind and body are open to receiving ideas that create great wealth and abundance for all. It all begins with connection to Source Energy, (First Cause) and it has been flowing to us and through us since the beginning of time. It is Appreciation. It is the rapturous joy of a new thought. It is unconditional Love.

I saw a cartoon once that I want to share here. There were two cavemen having a philosophical discussion. One caveman said to the other: “Something's not right. Our air is clean, our water is pure, we get plenty of exercise, everything we eat is organic and free range, and yet nobody lives past age thirty.”

Our ancestors—from caveman to grandpa driving a bread truck—have brought us this far because of our desire to make our lives better than they were yesterday. This is the evolution of humankind. The reason we live longer today is because we have dreams and desires that keep us engaged in Life. And here's another factoid for you: No doctor, and no amount of medicine is going to extend a person's life that is ready to go.

When the mind is healthy, the body will follow. All is well and nothing has gone wrong. If you are one of the billions of people on this planet that looks in the mirror and does not like what you see, you are setting yourself up for health problems.

If you are one of the billions of people on this planet that wakes up every morning dreading the day ahead, you are setting yourself up for health problems.

If you are one of the billions of people on this planet that cares about other people so much that you literally take on their pain, you are setting yourself up for health problems.

If you are one of the billions of people on this planet who is doing something you believe in your heart is wrong, but you do it anyway, you are setting yourself up for health problems.

Should I go on? I could. Every thought you think that goes against the Truth of who you are, sets you up for health problems. And as wonderful as the Energy of Money is, it cannot buck the current of a *belief*.

Where your attention goes, the energy flows... and it GROWS. .

We are a nation obsessed with weight, which has given rise to a multi-billion-dollar industry. This is the perfect example of how the Law of Attraction works. This is a universe based on attraction. Everything is inclusive—nothing is excluded. Whatever we focus on EXPANDS—including your waistline!

I was driving down Ocean Beach Boulevard, in Cocoa Beach, Florida one beautiful, sunny day. I stopped at a crosswalk and watched all the beach bunnies walking to the beach... all shapes and sizes. Every one of them perfect in their own inimitable way. A very obese woman walked by in a bikini. Instead of looking in disgust (as I do when I am not in my right mind) I said to the person in the car with me, “There’s a woman who loves her body.”

To me, the most beautiful woman in the world is a woman that loves her own body. She will be happier and healthier than the millions who do not.

I have always thought of myself as healthy, because at seventy-eight years young, I am not now, nor have I ever been, on medication. However, I was standing in front of the mirror in 2015, feeling disgusted with what I saw. I had never had a weight problem before, but my diet, over

time, had finally caught up with me. (This is a belief. I either change the belief or do something about my diet. It was easier to do something about my diet than change my belief.)

Because of my desire to shed 40 pounds, and because of my daily meditation practice, I was given the desire to start eating healthy. What a concept. It's not about losing weight; it is about trusting the cells in my body to do the job they were created to do.

My desire for right thinking brought me to a strong desire for right eating, and I was amazed at the transformation. I lost 40 lbs in 4 months and I've kept it off for 9 years.

The Big "C"

There doesn't seem to be a scarier word in the English language than "cancer." Everybody has it, or has had it, or knows someone who has had it, or has known someone who died as a result of having IT. There is a war on cancer, which only intensifies the frequency of powerlessness surrounding the dis-ease, and thereby increasing the dis-ease.

It's another multi-billion-dollar industry. Cancer research. The Law of Attraction in Action. Where your attention goes, the energy flows, and it grows.

With so much focus upon it, cancer will never be eradicated. You cannot focus on beating cancer and make it go away. Every person who has ever had cancer and is now cancer free, can say it is for one of the following reasons:

- They believed God would heal them.
- They believed the treatment would heal them.
- They believed in the Life-giving Power that flowed through them... as them. OR...
- They focused on a new desire... a new dream... a new life, and they did not kill it with their doubt.

I am not a big fan of the pharmaceutical industry. Drugs treat symptoms. There is no cure for dis-ease. There is only a complete understanding of, and a joining with, the Cause of Wellness. When you're in the Happy part of the Trinity, the Healthy part usually follows suit.

The Power of Influence.

All you have to do is watch the commercials on TV often enough, and you will start exhibiting the symptoms. Mesothelioma! Restless Leg Syndrome! If it weren't for the TV commercials, I'd never have known these maladies existed. But now that I know they exist, maybe I can create new and exciting ways to avoid Life. The longer we live, the more dis-eases we create to justify our feelings of vulnerability. The longer we live, the more things we find to worry about. *The way you feel about aging tells your body how to age.*

It isn't only cures and potions to ease symptoms that permeate the commercial air waves; it is fear. Fear is the Power of Influence at its worst. Every physical symptom that precedes every

dastardly disease ever conjured was first an emotion. The real warning signs of a life unlived are emotional.

We were born with an emotional guidance system that will always let us know when we are headed in a direction that would be pleasing to us. If it feels good—do it. If it does not—take a nap. Unfortunately, most humans hide their feelings—covering them up with the staunch cry of *duty*. It is my *duty* to serve others, even though it feels like crap to do so. It is my *duty* to get up every morning and go to a job I hate, even though it feels like my life is oozing out of my body—one breath at a time. It is my *duty* to stay with this person who treats me like a doormat, even while I'm thinking thoughts of suicide—or murder. It is my *duty*....

We are taught that life is not fair, and that we need to persevere, suck it up, take the good with the bad, and never give up. Push on—they say. Push on till the bitter end, and then you will have peace. Some religions teach that you will be rewarded for the suffering that life has wrought once you die! No wonder so many people can't wait for death to arrive. It is a welcome blessing after a life of being beaten down by the *call of duty*.

The Church of Profitsea is heralding in the call to *awaken*. Life is Good; it's supposed to be fun. Life is fair. Everyone is a vibrational match to the life experiences they are living. We are that powerful. Just as you would turn the knob on the radio dial, you can change your frequency and your vibrational setpoint. You can go from victim to victor by focusing on what you want and leaving everyone else out of the equation.

Listen to the Call of Source

There is a call that was meant just for you and you alone. There is a call from your Vortex, where your Inner Being (your Soul) resides. Your Vortex is pregnant with every desire you've ever had. When you listen to it, the air waves become music to your ears. It is the call of your Source; It is standing in the middle of the Life you created, and It is calling you to the fruition of every desire you've ever had. **Your** desire—not what other people want for you. Living life for other people is not living at all. Living the life you want to live, without apology and without regret, is the reason you volunteered to be a part of the joyous Hu-man experience.

Yes, people will call you selfish. But ask yourself why they see you as selfish; you will realize it is because they are not getting what *they* want.

You are the trailblazer, the dream-maker, the artist of your own masterpiece and the realizer of all things great and small. You are the physical extension of Pure, Positive, Non-Physical, God-Force, Source, Love-Energy. You have the Power within you to be, do and have anything you desire. This is not a world religion. This is the religion for the Point of Light that is You. You are the center of your own universe, and the universe is responding to your every desire. That means all you have to do is shrug your shoulders and let the weight of the world fall away. You are not here to save the world. You are here to create a world where freedom, joy and abundance lead the way. There is so much joy and abundance in your world that your cup overflows, and those attuned to the Call of their Source will come out to play with you.

Remember, happiness is an inside job. It is not the conditions in your life that make you happy. It is not people, places or events in your life that make you happy. It is your perception of those people, places and events in any given moment.

Here is another quote from my favorite shrink, Carl Jung.

“Nothing has a stronger influence psychologically on their environment, and especially on their children, than the un-lived life of the parent.”

Think about it.

I cannot reiterate strongly enough that the Power of Influence is NOT about victimhood. We do this to ourselves. Stop giving your power away to the so-called “experts” of the world, and all the selfish people that want you to kowtow to their demands. Also, guilt is a huge contributor to the dis-ease of the mind. Guilt is a LIE that the religion of social and moral values has perpetrated on humanity. Say good-bye to Guilt and FEEL your Spirit Soar.

In addition, Social media has turned the Power of Influence into idolatry. To quote Jon Bon Jovi: “We weren’t born to follow.” Jesus did not come here to create followers. He came to create leaders.

Chapter 8

Give Caesar His Taxes

Matthew 22:21; Mark 12:17; Luke 20:25

While I was Interim Director of the Economic Development department, I investigated the City's tax base, and I was mortified by what I found. There was a church on every corner. No wonder the City's tax base was in dire straits. I don't understand why separation of church and state should preclude churches from paying property taxes. There will never be a state religion in this country, but the states provide invaluable services that churches avail themselves of every day. This is a gauntlet I personally throw down.

The Church of Profitsea declines any tax-exempt status. We are the creators of our own reality. Our desire for wealth includes enough to go around for everyone. We can donate to worthy organizations (those ideas we want to see expand in the world) *and* we can give Caesar his due. The cost of doing business in the Church of Profitsea is tax deductible because mentors in this church are sovereign individuals that understand their life is their business. As Eric Butterworth stated in his book, *Spiritual Economics*, we are all God's Enterprise. Entrepreneurs have a lot of leeway for preserving profit when it comes to tax laws.

It does not matter what title you give yourself as a mentor in this church, but once you are a mentor in this church, you are in the business of raising the consciousness on this planet—starting with your own. The profit that comes your way comes because people *trust* you.

To the genius creators that are earning a paycheck, and are having their taxes automatically taken out, welcome to the world of Self-employment. Taking full responsibility for one's own mental, emotional, physical, financial and spiritual well-being is where Self-Realization begins.

The vibration with which we pay taxes has everything to do with the expansion of our wealth. How many people pay taxes joyfully? The Law of Attraction matches each giver's vibration equally. It is only in joyful giving that the return exceeds the gift. The more taxes we pay joyfully, the more our income will increase. I have actually come across people that will not allow their income to rise above a certain level because it puts them in a higher tax bracket, which is self-induced poverty! **You cannot give anything away in a spirit of joyful giving; it must come back to you tenfold.** Clergy have been preaching this universal law for thousands of years, and yet they must not believe what they preach, or every religion would be thriving enough to pay property taxes.

Generosity comes from a heart that is overflowing with the kind of abundance that only comes from a connection with the Source of all abundance.

I pay for services rendered with a joyful heart, never questioning the morals or ethics of the vendor. I trust the Law of Attraction to bring us together—I am always a match to my vibrational output. I can be a victim, or I can be victorious in a world awash in blessings—great and small.

I love sharing my abundance with people who are in the receiving mode. Everyone is always receiving from Source—not any individual—and Source has plenty to give.

I will also add that giving Caesar his due does not mean turning a blind eye to corruption and waste in our government. We can clean up the game of politics without pushing against anything. It's called one person, one vote. Campaign on what you WANT to see EXPAND in the world, not on denigrating your opponent. And then keep your promises. Accountability and Transparency. Everything will work out in the end. It is Law.

God is called SOURCE for a reason. You either trust IT or you play the victim.

Chapter 9

The Truth about Tithing

Much has changed for me since this chapter was written in 2017. When my book was published, I sent a copy of my book, plus a \$50 bill, to 100 Unity Ministers around the country, including my own minister. I didn't receive any positive feedback. So, I followed my broken heart out of the Unity fold and found Ernest Holmes. Ernest Holmes wrote *Science of Mind* and was the founder of the Church of Religious Science, in 1927. Finding his work was confirmation from the Universe that I was still on the right path. I love the Teachings of Abraham, as channeled by Esther Hicks, but finding Ernest Holmes was an indisputable confirmation that Ernest Holmes is a part of the Abraham consciousness. I hear his teaching in every Abraham workshop I listen to.

In 2020, churches literally closed their doors. Fear spoke loud and clear in 2020, with the pandemic, and that's when I started rethinking about where my tithes were going. If anyone should not bend to man-made laws, it is the sovereign individual that lives by the immutable Laws of the Universe, which cannot be broken.

As I have previously stated, I am not a fundamentalist Christian. I believe in Universal Laws. That being said, I love reading the Bible because there are great gems there to be mined when you know what you're looking for. When I was in Bible college, I wrote a book called *Miraculous Commerce*; 366 verses supporting my belief that God wants us to be rich.

Malachi 3:10 – “Bring the whole tithe into the storehouse, that there may be food in my house. Test me in this,” says the LORD Almighty, “and see if I will not throw open the floodgates of heaven and pour out so much blessing that there will not be room enough to store it.”

First, whenever I hear the word Lord, I automatically replace it with the word Law. The tithe is a Law of Abundance, of Prosperity, and of Generosity. It is telling the Universe that you *trust IT* to give *more* than IT receives. Also, “food” is anything that gives us sustenance, be it physical, mental or spiritual. And “my house” is not a place; it is a state of Mind. My definition of a Tithe: **A Tithe is given in thanks for your Spirit being fed.**

I quit tithing to organized religion in 2020, but I did not quit tithing. My tithe started going to my son. He is the epitome of an entrepreneur that puts his faith and family first. I believe if it were not for the love of my son, and his belief in me, this idea would have died on the vine many years ago. He has always been there for me with his expert business advice. The \$50 a month invested in this church can still be a business expense. It is an investment in *your* business. Your mentor is your minister, your life coach, or your financial advisor. And it is all tax deductible. You can give more than \$50 to your mentor if you desire, but only \$50 will go to support the happiness, health, and wealth that the Church of Profitsea radiates into the world.

To that end, as a congregation, we must get back to personal, one-on-one communication. We must look each other in the eye, shake each other's hands, and break bread together. That's what this Cosmic Religion is all about.

Technology has become an impenetrable wall between Souls. Yes, everything is energy, but we are so much more than Zeros and Ones. The new heaven and new earth is a return to the garden of EDEN. (**E**conomic **D**evelopment **E**ntrepreneurial **i**Nitiative)

Let us walk with each other, and talk with each other, and tell each other how much we are loved. It is the *job* of the mentor to teach by example. This doesn't mean they should be constantly under scrutiny as to how they are living their lives, but it is important that they **ARE** living their lives! Another Trinity, and my new mantra: **F**aith, **F**ocus and **F**amily. The Church of Profitsea is my family and one I look forward to spending an eternity with.

I need to add at the end of this chapter that my income continued to increase when I started tithing to my son in 2020. I joyfully gave Caesar more than I ever had in my life in 2022.

Chapter 10

We Teach By Example

The Church of Profitsea is a for-profit organization because it is a ministry *of* entrepreneurs *for* entrepreneurs. COPS is a place where happy, healthy and wealthy mentors teach by example. Mentors should get paid for their contribution to the rise of wealth-creating entrepreneurs. The gap between the haves and the have-nots is closing, and it has nothing to do with entitlement programs. The government can try to rob the rich to give to the poor, but the Law of Attraction will not allow that to happen. *Wealth is a vibrational setpoint*. The rich will always get richer—it is Law. (Luke 19:26) There were 17,000 millionaires in the U.S. in 1950. Today there are 22,000,000. The rich are supposed to be getting richer. I'm talking about the *Vibration* of wealth here. *There are a lot of happy and healthy people without a lot of money in the bank that live a full, rich life surrounded by the people and things they love.* "Give us this day our daily bread."

Every Individual's Enterprise in the Church of Profitsea will be leveraging the labor of others. Remember Kahlil Gibran's quote: "those who do not labor in love should go and sit by the temple gate and take alms from those who do." The wealth-creating consciousness will always end up with more than enough to share the wealth—not as charity—but because the labor of others is a time-honored tradition that builds character and a desire to improve one's financial status.

Let's talk about *leverage*. The wealthiest people on the planet are not working for a paycheck. Their ideas are creating more ideas, and their wealth is creating more wealth. The majority of people work for a paycheck, whether it be the same amount every week, or whether it fluctuates in terms of commissions or services rendered. Movie stars, athletes, and even authors are working for paychecks. And YOU are signing their paychecks. Your love of their work keeps the abundance flowing in their lives. But they are still not leveraging their time, money and energy. If those people did not work, they would not get paid.

Then you have entrepreneurs; they understand the meaning of leveraging one's time, talent, and energy. I am a real estate agent. I receive a commission check when I close a sale. My Broker, however, gets paid every time one of her agents closes a sale. That's leverage! I do not begrudge my Broker one cent. She is an example of internal fortitude. She is the heroine of a fantastic life she created for herself, but I have no desire to be a Broker. I love being an Agent. It is that love that created a healthy income for me—not the job—but I'm still working for a paycheck.

Leveraging the power of love through the power of MLM can turn getting a paycheck from one-closing-at-a-time into a payday that surpasses what ten brokers can make in a year.

My fear of being ridiculed for the idea of a church for profit has finally taken a back seat to my conviction that no growth ever comes from a mind that plays it safe. Source Energy never plays it safe. It is all about uncharted territory. That's where the treasure lies.

The following quote is from Steve Jobs. I feel his strength of will in my life every day. Thank you, Steve Jobs, for being a risk-taker, a trailblazer, a fundamentalist for capitalism and a great Entrepreneurial Spirit. He said:

“Here’s to the crazy ones. The misfits. The troublemakers. The Rebels. The round pegs in the square holes. The ones who see things differently. They’re not fond of rules and they have no respect for the status quo. You can quote them. Disagree with them. Glorify or vilify them. But the only thing you can’t do is ignore them, because they change things. They push the human race forward. And while some may see them as the crazy ones, we see genius. Because the people who are crazy enough to think they can change the world are the ones who do.”

Do you think a church for profit could change the world? Do you think a church that brings out the best in people could change the world? Do you think a church that promotes a “God of your own understanding” could change the world? Do you think a church that encourages “personal responsibility” could change the world? Do you think a church that embraces science and technology as a never-ending, joyous journey could change the world? Do you think a church that promotes capitalism and free enterprise as a way to be happy, healthy and wealthy could change the world? Do you think a church that shares its wealth with its members could change the world? I believe it can, and WILL.

The Church of Profitsea is not saving a single soul. We were all born knowing our sovereignty. That is our inherent freedom. We are not here to save the world because the world does not need saving. The Power that created the universe, put the stars in the heavens, and keeps this planet rotating on its axis and revolving around the sun, also created the Youniverse. Y-O-U niverse. It is You at the center of your universe. It is You who will save your own world by stepping out of the dark ages and taking responsibility for your own happiness, health and wealth.

Mentors in this church are going to encourage you to grow and glow in the Light of Pure, Positive, Love-Energy. Every dime you invest in the Church of Profitsea will be an investment in your own dynasty. You are God’s Enterprise.

We teach by example in this church. Your happiness and health depend solely on you. Your wealth, however, takes teamwork. Money stagnates and becomes a prison sentence when not circulating. No one gets rich in a vacuum. We are all in this together. Start thinking about **unlimited income**, and you will understand how *ideas* increase the possibilities of unlimited income. The Church of Profitsea is an *idea* whose time has come.

Unlimited resources will be flowing through the members of this church, just as the abundant tributaries flow around the earth. We are thriving. We are getting rich by loving our neighbors. We are thriving because we are doing what we love.

How does money get from the unseen to the seen? How does *anything* get from the unseen to the seen? It goes from a vibrational frequency, to a thought, to thought-form, and then to a full-blown manifestation. The vibrational frequency you are broadcasting determines the amount of money that will show up in your bank account.

The following is an excerpt from an Abraham-Hicks workshop. I found it on YouTube. The title is: *The Path Will Find You*, but the title should have been *The Best Explanation of Economics That Has Ever Been Heard*. Economics was my worst subject in college. I literally hated the concepts being taught, but I got through it. This is the Economics we were never taught in school.

Abraham-Hicks' Discourse on Economics:

One hundred years ago, no one could have conceived the avenues through which the abundance flows through today's economy. Do you remember when a millionaire was today's billionaire?

Do you believe that your current financial prosperity is tied to your action? Most of you exchange this "action" for this income. If you stop doing today what you have been doing, would your money flow tomorrow? Does your money feel dependent on your action?

Isn't Economics all about providing service for one another? Isn't economics all about your interaction with each other? If there were no one else on the planet, would the means of making money be necessary? Can you step back far enough to acknowledge that your interaction with one another is the basis of what economics is all about? Can you step back far enough to acknowledge that the economy depends on serving one another? Do you believe that all the ways to serve one another have all been figured out? Do you believe that there are desires in the hopes and dreams of the masses that are still to be discovered? Do you believe that you can position yourself to be the beneficiary of the satisfaction of serving others?

What we want you to embrace first is that your economics, and how they flow to you, are about the energy that you are flowing to others. In other words, it's what you're offering. What you are receiving and what you are offering are the same. They are vibrationally equivalent. If you can, think in terms of the service you are offering (service being used here in terms of economics—not doing for someone what you believe they cannot do for themselves). As you acknowledge that your contribution to the whole is of value to others, now your understanding of economics can serve you.

In what ways do you serve others? You serve others by getting the energy flowing; you serve others by tapping into the stream of infinite intelligence. You serve others by tuning in—tapping into this high-powered frequency. You serve others by understanding the path of least resistance. You serve others by having clarity in knowing what you want. You serve others by tapping into infinite prosperity, which is an infinite abundance of energy, and infinite ideas. Isn't the *idea* to serve at the basis of service?

When you start acknowledging that you could be in the right place at the right time, you will have more conversations with more opportunities to uplift others (service). Here is the most interesting thing about economics: you don't get it until you give it because it is the asking for it that summons it. So, when you get into the attitude of service, which is asking for it on behalf of others, *now* you open a really big portal... a really big Vortex of abundance. The question is *not*, "How can I serve myself?" (when it comes to economics). The question is, "In what ways can I be of value to others?"

Before you go to the high-minded answer to that question, ask yourself first, "Am I being of more value to others when I am open to solutions or when I am focused on the problem? Am I being of more value to others when I am joyful or depressed? That's not usually a question you ask yourself regarding a conversation around economics, is it? Because you're thinking in terms of your action rather than your attitude, but your attitude—your mood—is everything when it comes to what you are receiving and what you are giving."

In summing up Abraham's discourse on Economics, I would like to say that any person becoming a part of the Church of Profitsea is doing so for altruistic reasons. If you're joining for personal gain, you will attract those in it for personal gain—dumb and dumber. The energy that has been flowing through me for the past twenty-eight years surrounding the Church of Profitsea has always been about turning "loving your neighbor" into God's enterprise. Profit was meant to be shared. We feed our families with profit. We build sustainable communities with profit. We keep the wheels of free enterprise turning with profit. The amount of financial abundance flowing to and through me was meant to be shared. The ideas I've received over the years regarding personal responsibility were meant to be shared. I don't see people as diseased or impoverished because I know that Abundance and Wellness is their natural state of Being. My compassion was meant to be shared. I had to accept the fact that most people do not see the world as I do. If I hadn't accepted that fact, this book would never have been written. But that doesn't stop me from believing people can change.

Chapter 11

Are we all ONE?

This book is about the “idea,” not the vessel. Ideas are the sparks that bring forth new worlds into existence. The ideas draw us together in groups that give the appearance of being connected to other vessels. There is an idea running through the cosmos right now that we are all One. Let’s dissect that idea.

MAX PLANCK

Max Planck made a speech in Florence, Italy, in 1944 that rocked the scientific and religious community to its core. He said:

“As a man who has devoted his whole life to the most clear-headed science, to the study of matter, I can tell you as the result of my research about atoms this much: There is no matter as such! All matter originates and exists only by virtue of a force which brings the particles of an atom to vibration and holds this most minute solar system of the atom together.... We must assume behind this force the existence of a conscious and intelligent mind. This mind is the matrix of all matter.”

I am a vibrational being holding everything together at the center of my universe. I AM the center of my own universe, and the immutable *Law of Attraction* controls all vibrations (thoughts and feelings), matching everything to its own frequency. I AM the creator of my own life experience. My mind is the matrix of all matter because I AM the perceiver and the interpreter of vibration. We all came forth as flowing consciousness, knowing we could never be separated from our Source. We are truly fearless at the core of our Being.

The Introduction to *A Course in Miracles* says: “Nothing real can be threatened. Nothing unreal exists. Herein lies the peace of God.”

What is REAL cannot be intellectualized, either. We are vibrational beings. We are interpreters of vibration; therefore, *WE* determine what is real. We are the physical extensions of Pure, Positive, Non-Physical, God-Force, Source, Love-Energy. Without that energy, we cannot exist. But we *do* exist because that energy is eternal, always flowing to us and through us. It never stops. It never gives up on us. It continues to flow because that’s what It does. It flows because It *is* us!

We are vibrational beings, and our emotions let us know how we are doing. Have you ever been in a car accident? I have, and I was not thinking about having a car accident. I had two car accidents in Las Vegas, Nevada, within a month of each other. It had nothing to do with negative thoughts. It had everything to do with the accidents being a blessing in disguise. If it had not

been for those accidents, I would never have left Las Vegas. My Inner Being always knows what I want and continues to draw me to my heart's desire through the path of least resistance. Those accidents were *my* path of least resistance.

We are always an accident waiting to happen when we are not “connected” to Source. I could have easily left Las Vegas without the need for two car accidents, but my Inner Being was using the vibrations that were available at the time to guide me to where I wanted to be—not where my Inner Being wanted me to be, but to where *I wanted to be*.

We don't have to analyze every perceived negative occurrence in our lives. We acknowledge the occurrence as being unwanted, and then we focus our attention on what *is* wanted. Source is always moving forward, never judging, never condemning, never seeing us as less than perfect. We do that to ourselves and to each other.

There are high-vibration ideas and there are low-vibration ideas. In an abundant universe, where there is more than enough for everyone to have the success they desire, why would anyone want to deprive anyone else of their success? There's no such thing as competition, which is a low vibration idea, when everyone is at the center of their own universe getting what they want.

Imagine a mosque, a synagogue and a Christian church on the same street, where each believer inside believes there is only ONE God, but for some reason they cannot see their God inside the other religions. Now, these same believers can be entrepreneurs; they are selling their products and services to anyone who wants to buy. They know the larger the customer base, the greater the profit. Now, the entrepreneur has vision. Now, the entrepreneur knows that God is everywhere, blessing everyone, all the time.

As I said in my introduction, we are over 8 billion points of Light on this planet, and each one *is* God, but there will never be a world religion, any more than there will ever be world peace, because those points of Light all see themselves as RIGHT. The perception that I am right puts the eternalness in eternity. If all those points of Light suddenly agreed on everything, we would cease to exist, literally. It is the lower vibration that causes the *desire* for a higher vibration. Without knowing what we don't want, we would never ask for what we do want. And thankfully, because we are all so diverse, life goes on, and on, and on.

We all have very similar intentions—Happiness, Health and Prosperity—Freedom and Growth—but what those things look like change according to the perceiver.

Happiness to one person could be boredom to another. One person can live a happy, fruitful life with a debilitating handicap, while others would let that handicap destroy their lives. And, of course, everyone knows the plethora of perspectives there are on *prosperity*. A couple just starting their life together, with less than \$100 in the bank, could feel like the most prosperous people in the world. It is all about perspective.

We all have ONE illuminating Perspective within us, and that Perspective is always on our side, and always wants for us what we want. We can have it all, without taking anything away from anyone else.

True *Oeness* comes from knowing that we are all connected by Love, regardless of our differences, our backgrounds, our beliefs, and our lifestyle preferences. Even when we spew words of hate and condemnation, the Love that we are Loves us and Loves those we hate. That is the eternal flow of Well-Being that keeps this planet spinning on its axis in perfect proximity to other planets. We don't have to croak to understand the meaning of *Oeness*. In meditation, we lose the boundaries that the physical world has erected, and we see clearly the magnificent point of it all. It is THE never-ending story, and each point of Light has a significant role to play.

Watch Nassim Hamein's video on the Connected Universe. It is hard to put into words what *connectedness* really is.

The same with Gregg Braden's series on "The Missing Link." His incredibly well-done series is loaded with quotes from prestigious, scientific, peer-reviewed journals (yawn); yet he manages to get his spiritual message across.

I encourage fundamentalist Christians to watch some videos by Rev. Ike. He was the son of a Baptist minister. He started preaching at the age of 7. His spiritual evolution is a phenomenal thing to behold. He was ex-communicated from the seminary he graduated from, but he did not waiver. He started the Science of Living ministry (very similar to Ernest Holmes' Science of Mind teachings). He said he started reading the Bible as a book on psychology. An amazing man who suffered the wrath of the media and his theological peers for being a "huckster." He denounced the doctrine of "original sin." This man understood how caring what other people think about you will keep you poor and shackled by false beliefs.

Chapter 12

The Vortex – Our Vibrational Reality

Esther Hicks wrote a whole book on The Vortex, so I am not going to try to improve on her explanation, but I will say that 100 years before Esther started channeling *The Teachings of Abraham*®, Thomas Troward wrote *The Edinburgh Lectures on Mental Science*. I downloaded the PDF version and found *The Vortex Theory* on page 32. I'm sorry, but anyone that does not believe that channeling is REAL, has never had an “ah-ha” moment. At that moment, you are channeling. Our ideas come from the Universal Stream of Consciousness; the ONE Intelligent Mind that Max Planck alluded to in his findings on quantum physics. Just because you don't believe it, doesn't mean it's not real.

The Law of Attraction is responsible for bringing all equally matched vibrational frequencies together. I believe I create my own reality; therefore, I am attracting every book, every like-minded person, and every experience, to prove to myself that this is true. The Law of Attraction works the same way for anyone who disbelieves, which is why it is futile to debate the subject, because everyone is getting proof that what they believe is true. Everyone's truth is valid. The Law of Attraction makes it so.

Defending Truth is not necessary. Asserting your *truth* on anyone else is an exercise in futility. History throughout the ages has proven this axiom to be true. Thankfully, the days of crucifying people for their beliefs or burning them at the stake are a distant memory. Unfortunately, unwitting martyrs still exist.

What keeps us from believing in our power as a genius creator?

We spend most of our time observing what others have created. We are constantly looking at the result of someone else's thinking and making it a part of our vibrational setpoint. This is the type of “oneness” that many people experience. We see a terrible thing happening to someone and automatically feel empathy or sympathy for that person or group of people, and then we become *one* with their pain. This is the reason most people do not want the Law of Attraction to be true. No one wants to admit that they are the cause of their own suffering. Once you understand how things are coming to you, suffering is optional.

If there is anything going on in the world that I perceive is causing me stress and anxiety—even though it may have nothing to do with me personally—I am creating a vibrational setpoint that the Law of Attraction will respond to. It is Law. *Belief that there are bad things happening to people sets up a vibrational setpoint of vulnerability, and the Law of Attraction will match that vibration with like vibrations.* The victim and the victimizer are vibrating on the same frequency.

**“The kingdom of God is not coming in ways that can be observed,”
Luke 17:20**

Everything we want is created as a vibrational reality *before* it comes forth in manifested form. We are creating our own vibrational reality with our desires. Everything we ever wanted is there, in our Vortex, waiting for us to believe and receive. (Quantum physicists call it the Unified Field) The manifestations of the houses and cars and lovers and money are wonderful things, but they are fleeting. It is the next desire and the next, which are born out of every manifestation that puts the eternalness in eternity.

Chapter 13

Happiness is a Relationship that Encourages Freedom and Growth

One of the best tenets of *A Course in Miracles* is its discourse on *special relationships*. I don't have a problem with special relationships today. Every relationship serves a purpose. Sometimes the relationship serves as an example of what I don't want, in which case I shift gears and go in another direction. While traveling this extraordinary evolutionary path, I've found that flexibility is one of the most important aspects of the mind. If you feel as though you can never change your mind, your mind will atrophy. There's supposed to be an adventure between being birth and death.

When I was a child, my relationship with Jesus was as real to me as the sun rising in the East every morning, and just as certain. A relationship with the Divine can only be experienced; it cannot be taught or explained. Like everything else worth having, there must first be a desire to have it. The desire to know Jesus was piqued in me by the Sunday School teachers telling me of Jesus' Love. This love was unconditional, and unconditional love is non-existent in special relationships. I only experience unconditional love in the garden of my mind, and it is possible for me to see the Christ in everyone I meet, if only for an instant.

I was eight years old when my preacher gave an unusual altar call. It was Jesus' enthusiasm that drew me to my feet as I practically ran to the front of the church to accept what I knew to be true. The altar call was not, "Who wants to be saved from sin?" I never answered that call because Jesus had never condemned me. The altar call was, "Who is going to live forever?" I was on it, and Jesus was right there with me. We practically sprinted to the front of that church, together.

Through all my relationships, I grew closer to the Reality of my Being. I let go and walked away when the *special* relationship no longer served my Higher Purpose. Most religions teach "sacrifice" for the good of the whole. My father and I say to that belief, "Malarkey!" My Inner Being has never asked me to sacrifice anything for anyone. I have made choices out of love that may have appeared as sacrifice, but no choice made in love is a sacrifice. If a choice is not made in love, it will not reap the desired fruit.

Let's talk about student-teacher relationships. My teachers, for the most part, have been books. I have always attracted the authors, philosophers, business leaders and entrepreneurs into my life who added depth and breadth to my life. Reading words in a book does not teach, but having those words jump off the page and resonate so deeply within my Soul that leaves me breathless—that's a Life-Long-Learning experience. The personality who wrote that book, or wrote the words, is not even relevant to my experience in that moment. I have never been an idolater. I revere ideas, not people.

If I were to pinpoint the most significant healthy relationship in my life, it would be in Las Vegas, Nevada, where I discovered I had a brain. Who would have thought? Sin City gave me a desire to do something meaningful with my life, and a kick-start to the evolution of my religion.

It was in the late '70s, and I was dealing Blackjack in a casino on the Las Vegas strip. Dealers get a twenty-minute break every hour, so every forty minutes I'd go into the break room and hook rugs. I've never been a person interested in crafty things, but I was bored, bored, bored. I was working the graveyard shift, which meant I had the whole day ahead of me with nothing to do, so I decided to take a college course at Clark County Community College. How many people would choose English 101 for fun? There was something bigger than I at work with that choice. I had no idea what an impact that course, or that teacher, would have on my life, but it was huge.

I want to say this to all teachers everywhere. You never know the impact you are having on your students' lives. You are worth more than your weight in gold. My teacher's name was Barbara, and whenever I think of angels, I think of her. She saw something in me I never knew I had. I was thirty-five years old when I discovered I had a brain in my head. I found the power to reason, the imagination to write poetry, and the fortitude to finish what I started. I also had a lover in Las Vegas at the same time who rocked my world, but for the life of me, I cannot remember his name.

Today, I consider myself an expert on one relationship, and that is the relationship with my Inner Being. There is no greater relationship to nurture than with someone that encourages freedom and growth, which is my sole purpose for being in this body, on this planet, at this time. I am free to be the best me I can be, and when I am living my life for another human being, which is a requirement of special relationships, I am not living *my* life. I am living a self-imposed prison, with no room for growth.

I am happiest when I am communing with my Inner Being in the garden of my mind. Anytime I sacrifice my relationship with my Inner Being to enter a *special* relationship, I suffer for it. Special relationships require suffering.

A Question for you: Are you suffering because of a special relationship in your life? Are you capable of seeing that person as whole and free, which is their true nature? Are you capable of seeing yourself as whole and free, which is your true nature? The Law of Attraction does not make mistakes. Is it your need to be needed that brought you together? Is it your fear of being alone that brought you together? Is it your need to be right that is driving you apart? Face your fears and know that no relationship is worth giving up your autonomy for. Living a lie is like dying a little every single day.

Chapter 14

Hear No Evil, See No Evil, Speak No Evil

We are all channeling the Word of God.

The Bible is accepted as the *only* Word of God by many people—too many. The New Thought pioneers such as Neville Goddard, Emma Curtis Hopkins, Charles and Myrtle Fillmore, Ernest Holmes, and Mary Baker Eddy, just to name a few, were up against great odds when they started interpreting the Bible differently. Fortunately, as mass consciousness evolved, we stopped burning heretics at the stake, but that doesn't make fear of change any less destructive.

Did God really stop talking to us after the Bible was given its seal of approval in 325 AD, by the Catholic Church, turning the Word of God into a proclamation of conformity? Today I know that Thy word and My word are ONE. It is *my* words of faith and understanding that propel me into a new age of personal responsibility. I AM the physical extension of Source Energy, and *my* words matter. My words have power—to create and to destroy.

There are two authors who have made the greatest impact on my life, and both were “channeling” the Infinite Mind. My appreciation for their courage goes beyond measure. Those two authors are Helen Schucman, Ph.D, who scribed *A Course in Miracles*, and Esther Hicks, who continues to channel *The Teachings of Abraham*. Both came from very different backgrounds. Helen Schucman was a very unhappy research and clinical psychologist. Esther Hicks was a bookkeeper who was living happily-ever-after. They are both very different in their approach to the *meaning of Life*, and yet, for me, they dovetailed with each other perfectly.

My obsession with *A Course in Miracles* gave my life new meaning. I had just left husband number five, and I was filled with guilt over five failed marriages. I was feeling like a failure in the relationship department. I was thinking that love was only something made up in fairy tales and Hollywood movies. *A Course in Miracles* set the stage for me to practice the meaning of Love. It is no accident that husband number six lasted longer than husbands one through five put together.

Reading *A Course in Miracles* was like reading poetry from another dimension, which it is. I didn't just read it, I transcribed all three volumes on my computer so I could use it as a concordance. (This was before it was digitized.) Every time I picked it up, I felt stronger and lighter. I wasn't taking myself so seriously anymore. Of course, that had a lot to do with the premise of *The Course*, which is that the world is an illusion. It's hard to take things seriously that aren't really there!

After ten years of immersing myself in the *curriculum*, it was time to stop living in the non-physical realm. I was happy believing that nothing I interpret with my five physical senses was real, until I had to ask myself, “Then what's the point?” There was a world I could see with my eyes, and touch with my hands, and hear with my ears, and smell with my nose, and taste with my very discriminating taste buds. I wanted *my* life to *mean* something. I no longer wanted to

believe that this world is just an insane thought, which is another basic tenet of *A Course in Miracles*. I wanted to think new thoughts of how I could turn *my* world—this very sensual world—into heaven on earth.

Everyone is a channel.

Unfortunately, most people are just regurgitating yesterday's demons. They base their happiness on situations or circumstances totally out of their control, instead of focusing on the all-important, ever-changing, ever-challenging new ways to make their lives better. We are born anew every day when we don't let yesterday's drama negate our ability to change our reality.

Words are very powerful. They summon emotion, which summons energy, which summons the Life Force, which makes them real. One of the most misunderstood words in modern language today is *ego*. The ego has been demonized by pop psychology as the enemy. For the most part, it replaced the devil in Christian theology. Supposedly, the ego is that part of our mind that continuously belittles our worth and throws up roadblocks to our success. **Nothing could be further from the truth.**

Every negative emotion I have, including fear, is nothing more than an indicator that I am not seeing the world through the eyes of Source. My Emotional Guidance System, which works hand in hand with my vibrational broadcast system, is the gift of relativity. The ego is my *partner* in this time-space reality—not something I have to constantly guard *against*. The belief that there is anything to guard against is where the belief in separation comes from. The ego works in concert with me as *the focuser*.

There is a book, *Heart Intelligence—Connecting with the Intuitive Guidance of the Heart*, written by Doc Childre, Howard Martin, Deborah Rozman and Rollin McCraty. They're a team at HeartMath, Inc. I am a devotee of their program. It lets me see my emotions in vivid color on my computer screen. This is a quote from that book, on page 208: "Our Ego is not the boogie man, and with patience and inner guidance it can be transformed into its higher vibrational purpose."

There is no separation between me and my Inner Being. This magical, sensual, ever-expanding, ever-evolving love story I am creating would cease to exist if it were not for the *focuser*. I am the chooser. The ego follows my lead and focuses on what I choose. I need to become a better chooser. Sometimes I choose to focus on lack instead of plenty. Sometimes I choose to focus on sadness instead of what makes me happy. That is not the ego's fault. I am the chooser, and the ego allows me to choose the conditions I prefer; then the *Law of Attraction* makes it so. It's really a remarkable partnership. A partnership that needs nurturing.

As powerful as words are, and as much of an impact as they have on people's lives—good and bad—it is always the *emotion* behind them that summons the Life Force where the creative process begins. Words spoken with heartfelt *appreciation* will turn pennies into dollars. It will turn sadness into joy. It causes the blind to see.

The word gratitude, in my opinion, is the most vibrationally misused word in the English language today. Gratitude brings with it a vibration of lack. I am grateful for the food on my table (because there could be no food). I am grateful for the roof over my head (because there could be no roof). I am grateful for my job (because I could have no job). Also, speaking gratitude for anything, when I don't *feel* worthy of anything, adds more vibrations of unworthiness to my vibrational setpoint. I have replaced the word "gratitude" with two words: appreciation and thankful.

I AM *worthy* of every good thing in my life. *Appreciation* is a pure vibration of Love. If you want more of anything in your life, start appreciating what you have. Then what you have will expand beyond your wildest dreams. Let's define appreciation in economic terms: Appreciation appreciates.

I am so thankful for the life I have lived. I would not change one minute of it. We are all the physical extensions of Source Energy. We are all here on the leading edge of creation to expand, evolve and create, according to *our* preferences. The ego is the star in the greatest story ever told—*your* story, *my* story, *our* story. Without the ego, we would physically cease to exist. Without the ego, there would be no story. The ego focuses on evil because we believe in evil. We can all have what we want without taking anything away from anyone else. We set it up that way before we came, and then we forgot—until someone like Helen Schucman channeling Jesus, and Esther Hicks channeling Abraham, shows up to remind us.

The so-called Word of God is not in books. It is in our hearts and minds. (Jeremiah 31:33)

Every time a new thought is thought, an angel gets its wings (*just kidding*). We are making this up as we go along. We can have it anyway we want it. There will always be wars and rumors of wars because we believe in right and wrong, and we're always right. We are all standing on holy ground, and we are capable of creating heaven on earth right where we stand. Let those who have ears hear.

One final note on ego: Do you really want to split your energy by believing you have an entity living inside you that has the power to turn you into something you do not want to be? Those who believe the devil is real, are doing exactly that.

Chapter 15

We are the Light of the World

“Whether a child is born in the urban sprawl of Detroit or the windswept plains of Nebraska, they look up at the same night sky, they fill their heart with the same dreams, and they are infused with the Breath of Life from the same Almighty Creator.” Donald J. Trump, Inauguration Speech, January 20, 2017.

The Church of Profitsea is literally ushering in the *second coming*. The new heaven and new earth are here for those who have ears to hear and can look at the world through the eyes of their Inner Being. Christ was not Jesus’ last name. Christ literally means the Light of the World. It doesn’t matter what religion a child is born into. Every child born is the Light of the World. The Cosmic Religion encompasses all religions. We are the risk-takers, the barrier-breakers, and the prophets for profit across this Universe. We are living an abundant life. We are taking responsibility for ourselves, our families, our health, and our wealth, but we are not arrogant about it. We are simply providing proof that the greatest Power in the Universe—the ONLY Power in the Universe—lives and moves and has Its Being in *US*.

Every child *is* infused with the same Breath of Life from the same Almighty Creator, but if that child is taught from the moment it breathes its first breath that it is an insignificant “blue dot” in a vast universe that doesn’t care whether it lives or dies (thank you Carl Sagan) why would that child even think about becoming a world leader? The Spirit of Entrepreneurship has never been more alive than it is today, and it is spreading through the barriers of religious, political, and scientific borders. It is a runaway train and it will not be stopped.

President Trump also said on January 20, 2017: “There’s no room for prejudice in the heart of a patriot.”

Definition of a patriot

Noun. A person who loves, supports, and defends his or her country and its interests with devotion.

A patriot’s devotion is to country—not religion. I am a patriot because I believe we live in the greatest country in the world *because* we are tolerant of religious beliefs. There is no prejudice in patriotism.

This country is the natural evolution of a world that had gone mad with religious power. Before this country came into existence, great minds were being snuffed out in the name of God. The reason this country exists is *Freedom*. Freedom *from* and *of* religion. In this country, the atheist, the Jew, the Muslim, the Christian, the Shaman, the Mystic, the writers of books and songs, all have one thing in common—they are free to *think*, and therefore to create a world of their own making.

The Church of Profitsea reveres patriots. Love your country. Put your heart and soul into making your country a place where Love abides and prosperity flows like a river through the pocketbooks of all who are working for their highest good.

A country of patriots is a country of individuals putting themselves first. The ground under my feet is holy ground, and on this ground I will create a life worth living. There is no greater gift I can give to my Creator than to create a life worth living. There is no greater purpose than to create a life worth living that increases the wealth and well-being of those whose lives I touch. The wealth of nations was born on the premise of Self-interest (with a Capital “S”). When we know who we truly are, we light the path for others to follow. We are all the Light of the world, and we pass the torch to all who seek joy, wellness, and prosperity—it is a package deal.

This world has never been without the Light. It took a group of ragtag rebels who refused to accept the status quo to turn a dream of freedom into fifty stars on a red, white and blue flag, which is now and will forevermore be a symbol of what freedom, joy and expansion are all about.

The Church of Profitsea was born out of the cry for freedom, and all are welcome. It is the evolution of religion and its time has come. It’s time to quit quoting the Bible, the Torah, the Koran, the Bhagavad-Gita, or any other relic of the past, and start writing our own holy books. It’s time to start trusting the God within, and stop forcing some religious interpretation of God onto others, which is what the Founding Fathers of these United States of America thought they were accomplishing.

Self-Love and Self-Interest are synonymous. One cannot seek his or her own Self-Interest, without adding to the coffers of the Whole. Self-Love must precede loving your neighbor, and any individual who loves Self could never harm another.

Live and Let Live is *not* tolerating others. It is seeing them through the eyes of Source.

Chapter 16

The Evolution of Religion

Einstein's essay on Cosmic Religion, entitled *Religion and Science*, appeared in the New York Times Magazine on November 9, 1930 pp 1-4. It has been reprinted in Ideas and Opinions, Crown Publishers, Inc. 1954, pp 36 - 40. It also appears in Einstein's book The World as I See It, Philosophical Library, New York, 1949, pp. 24 - 28.

Collaboration is probably the greatest *trinity* of all. Whenever two or more are gathered with singleness of purpose, the Triune Nature will be exalted. My son (the Light of my Life) added the *9 Levels of Enlightenment* to this Chapter. Scott moved in with his father when he was 6 years old, but our lives have paralleled each other's so completely over the many years that followed our separation. We are truly two sides of the same coin. (Of course, today we know that *separation* is an impossibility when one understands unconditional Love.)

9 LEVELS OF ENLIGHTENMENT

1. DESIRE FOR KNOWLEDGE

Nothing happens in this 3rd dimensional level of existence without a Cause. The Desire for Light (Truth) could be considered First Cause. The Truth of who we are has been available to us since the beginning of time but remains a mystery without our acknowledgement. What causes a *desire* for Knowledge? It is different for every genius creator. Some have to go through hell to get to heaven, and some are just naturally inclined to follow their bliss, and an entire spectrum in between.

2. ACKNOWLEDGEMENT

Hu-mans are in perpetual, multiple states of BE-ing. We may only see a frame within a film strip, yet the entire movie is playing on multiple channels simultaneously. The *infinite, limitless Mind* is being *experienced* universally in this time-space reality through the microcosm of the macrocosm. This is where our focus becomes laser-like in its ability to create.

3. ACCEPTANCE

Acceptance *is* Receiving. I AM the writer, director, producer, and star of the greatest story ever told. This is where *inspired action* moves into deliberate *creation*. The blame game ends here. I forgive the past because it no longer exists. NOW is where all my *power* lies. I am free to choose my future NOW.

EMBODIMENT

I Appreciate the body in which my unique melody resides. I Dance to the tune of my own drummer, and like-minded genius creators are attracted to the rhythm of my heartbeat. I Center my heart in prayer and meditation; praying *only* for those things I want to see expand in my world. I sit in Silence as my heart teaches me how to rely on Self. Self-reliance is the desire I was born with, and Self-Realization has been the goal ever since.

5. MOVEMENT

I AM the *vibrational Heart* of movement. I Play with the Energy that flows so freely through this magnificent body. It is time to give as I have received. It is time to fly as I become grounded in the Source of All-That-Is. The physicality of our nature is our gift to each other. It is through our five senses that the cosmic religious *feeling* expresses Itself through Love.

6. LOVE

I owe *everything* in my inner and outer world to the labor of others. I *Love* my neighbor as I *Love* my Self. How can it be any other way? Where is Love if it is not here in the *Trinity* of You, Me, and Source? In this 3rd dimension of Be-ing, my sole purpose is to *labor in Love*. I Choose Love. I Choose Kindness, I *Express Appreciation* for all of Life. I Choose to expand my Vessel to include Happiness, Health, and Wealth for ALL.

7. ABUNDANCE

Knowledge has turned to acceptance, which has turned to embodiment, which has morphed into movement, which has become the LOVE that fuels all manner of dreams and aspirations, which now becomes my reality. I sense more energetically. I connect more readily. I manifest more quickly. All is Well.... Always has been... always will be.

8. INFINITE WISDOM

The curtain on the greatest story ever told disappears to reveal the compassion that underlies all Truth. I AM. WE ARE. GOD IS. Time no longer exists because there are no timekeepers in eternity. As Above, So Below. As Within, So Without. Joy to the World, the Law has come!

9. (INTER)CONNECTEDNESS

This is a time of *Celebration!* This is a time for singing, dancing, and playing with the fairies of the Universe. There's nothing *serious* going on here! We really can have everything we want without taking anything away from anyone else. We were hard-wired for the purpose of joy, freedom, and expansion. We are free to write new songs, invent new technologies, travel beyond the limits of imagination, and *live* the Abundant Life. The Abundant Life that was formed before we were born.

I want to thank my son for his beautiful 9 Levels of Enlightenment, and he wants to reiterate that like all the ideas, comments, and suggestions in this book, everything is always open for interpretation. That's what's so exciting about being an eternal vibrational Being. Our expansion never ends! These levels will be revisited in Chapter 19, when the 9 levels of the Church of Profitsea's family fortune unfolds.

This chapter is about the Evolution of Religion, and My Religion can be summed up in 3 Words: God Is Love

I sat in a religious service one Sunday—my first and last experience with this particular Christian denomination. On the wall, in big letters, were the words: GOD IS LOVE. The service was emotion-less. There was no preacher or speaker at the front of the church excited about God's Love. There were only "readers," reading. Have you ever been in a classroom where the teacher read from a textbook without any emotion? How did you manage to stay awake?

To quote Carl Jung, "There can be no transforming of darkness into light and apathy into movement without emotion."

I tap into the Frequency that is God with the power of E-motion. Energy in Motion. Powerful, exciting emotions that thrill me from head to toe. Life is like a roller coaster ride—the slow climb to the top and the increasing butterflies in the stomach knowing there's a wild ride ahead, and when you get off the ride, you can't wait to do it again.

Everyone has their God-moments. They are moments of joy that can never be duplicated because that moment has passed. Looking for those moments, expecting those moments, reveling in those moments, is the reason I am here. And there's something I've learned about my Inner Being; i.e., no matter how high I get, I can always get higher. This is the Truth of my Being. It never ceases to evolve. There's no such thing as devolution. I know it doesn't seem that way sometimes, but we are continually expanding our Vessel to make room for MORE.

No one can vibrate for me. I am the creator of my own reality, and my choices make me who I am in any given moment. There is a vibrational frequency that is Love. Everyone knows it when they *feel* it. Start practicing that *feeling* more. It is gender neutral. It is color blind. It reaches across theologies, philosophies, political and scientific arenas, and it gives everyone what they are asking for—sovereignty. No one is taking our freedom from us. We give it away when we believe we are vulnerable.

Chapter 17

Twelve Premises Behind the Formation of the Physical Universe

The Nine Levels of Enlightenment refer to the Coming of Age of our Desire for Enlightenment. The Twelve Premises behind the formation of the physical universe, refer to the evolution of all matter in the Matrix of the One Mind. Remember, Max Planck said, "There is no matter, as such!" but for the same reason *A Course In Miracles* lost me, I was never supposed to *deny* the physical universe, only understand how it is the physical extension of Non-physical Energy, which is the #1 Premise.

1. I am the physical extension of Pure, Positive, Non-physical, God-Force, Source, Love-Energy.
2. Desire + Belief = Perception of Reality
3. I ASK according to my own Self-centered preferences, and it is given according to my belief, aka faith.
4. As powerful as words are, it is always the *emotion* behind them that summons the Life Force where the creative process begins.
5. I recognize the power of influence and its ability to create in my reality.
6. I cannot create in anyone else's reality.
7. I thrive when I focus on the best parts of my life.
8. Profit is synonymous with Creative Ideas, and a belief in their worthiness.
9. I live in an abundant universe that delights in expressing Its limitless supply through me.
10. I give from the vibration of abundance, contributing only to those ideas I want to see expand in the world.
11. Healthy relationships encourage freedom and growth.
12. Every new idea gives birth to another idea on how to make it even better.... It never ends.

Premise #1 – I am the physical extension of pure, positive, non-physical, God-Force, Source, Love-Energy.

Every individual on this planet came here, Sourced by Non-Physical Energy, with the sole intent of joyful expansion. It is the only reason we are here. What that expansion looks like is totally up to the genius creator housed in that temporary stuff known as a body. We are all the center of our own universe: asking, dreaming, becoming, expanding, and living a life of our own making. We are all vibrational beings, sending out frequencies that the Law of Attraction manages, drawing all like-frequencies to each other. We cannot escape our vibrational setpoint. The only thing we can do is manage it. We are the Manager of our Life Experience. We are the CEO of our own Life Experience.

I am God's Enterprise. My Life is my Business. From the first breath I took, I set into motion the cause and effect of what would be my legacy. The intrinsic value of every individual on this planet is beyond measure and beyond comprehension, because we cannot live outside our own self-created universe. None of us are capable of seeing the "Big Picture." We only know our own personal, selfish perspectives on life, and that is all we're supposed to know. Those selfish, personal perspectives add to the Whole. They are significantly and unquestionably essential to the Whole.

Premise #2 – Desire + Belief = Perception of Reality

And God said, "Let there be Light." This is the original *desire*. God asked. God believed. *There was Light*.

By now I hope you know that the Church of Profitsea does not support the idea that there is some "Super Being" or Deity "out there" controlling the Universe. There is only ONE MIND, and we are all an extension of that Mind. The Universe is controlled by *desire*. Ask and it is Given. (Matt 7:7) "You open your Hand satisfying the desire of every living thing." (Psalm 145:16) Whatever we want is ours when we believe. Contradict that belief with doubt, and you get what you *don't* want. This is so simple—but the complex human mind wants to pick it to shreds, so it can waste an entire lifetime blaming outside *conditions* for all the evil in the world. The Church of Profitsea is about UNCONDITIONAL LIVING.

The desire for Light is the First Cause of all matter in the Universe. There is nothing more regenerating than creation. Pure Positive Energy had to have a vessel from which to expand. Non-Physical Energy is now focused in a vessel, with the innate ability to create anything It desires. There are over 8 billion vessels on this planet that have dominion over their own perception of reality. They are free to choose and believe anything they want. Their choices become their legacy. Their beliefs reign supreme as the Law of Attraction coalesces around their beliefs, creating a perception of reality based on their beliefs. The Vortex receives all desires and then holds them in readiness for their manifestation, which happens when the *belief* of the *asker* matches the *frequency* of the desire.

“Everything is energy and that’s all there is to it. Match the frequency of the reality you want, and it must be yours.” This is physics. This is quantum physics. This is metaphysics. This is Truth, and it *will* set you free.

Hu-man first appeared on this planet only after the stable continuity of desire matching belief. The sun rises every morning. The earth gives up her life-giving nutrients. The flora and fauna continue to oxygenate the planet. The perfect combination of air, land and water that placed this blue diamond in the universe is the same perfect combination of mind, body and spirit that Sources every individual on this planet. The well-being of this planet is not in the hands of any individual. There is a Force much stronger than individual desire behind the continued well-being of this planet. That Reality was set in place before Humans came to participate in the creation process. Happy, Healthy and Wealthy is all about believing that our desires spring from a Well of Plenty. There is no bottom to this well, and there is no limit to its pure, positive energy.

Mass consciousness holds a joint belief that these bodies do not last forever *because* Source Energy desires a new vantage point for the continuing, and ever-expanding universe. The genius creators who are creating on purpose understand that their limited vantage point is a hindrance to the eternalness of creation, which is why they leave their bodies joyfully. They desire a new vantage point from which to create anew.

Premise #3 – I create according to my own Self-centered preferences, and it is given, according to my belief.

We can love them. We can idolize them. We can even give birth to them. But we are not responsible for anyone else’s life but our own. We cannot believe that every individual is a sovereign being and try to run anyone else’s life. We are not the God of someone else’s life, and that is not our role. We are devaluing and denigrating others, when we tell them we know what is “best” for them. We only know what is good for ourselves. We are Selfish and Self-Centered to the core of our being because we can have no other perspective. We were hard-wired to create according to our personal preferences.

True Love is trusting the God-Self. Everyone is expanding through trial and error. We know what we don’t want, which causes us to ask for what we do want. If anyone is looking to us for answers, we teach them how to find their own answers. Teach by example. Show the way; don’t *be* the way. Children come into this world connected to Source and knowing their worth, and then some well-meaning parent or teacher convinces them they are not what they think they are.

Teach that desires are achievable, and that the abundant universe provides to all without taking anything away from anyone else. We do not have to reach across the border of our *Beingness* and take anything away from anyone else. We are each a self-contained universe. Unlimited resources are literally an *Idea* away.

The Law of Attraction manages all relationships. No one is in your universe by accident. Learn to say “no” when it is not what you want. Learn to let go, so that what you want can take its place. People are changing constantly. It’s okay to recognize when a relationship is no longer serving its purpose.

Love others the way your Inner Being loves you. Do not stand in their way when they are flailing about, trying to get their bearings. Let them flail. It is the way of the genius creator. Soon they become a Maestro conducting a symphony so magnificent that those who hear it are moved to tears of joy.

Believe in people. Do not do for anyone what they are capable of doing for themselves. Making others dependent on you robs them of their joy and their freedom. See them as their Inner Being sees them. Treat them as their Inner Being treats them. Trust them to be the splendid sovereign beings they were born to be.

Premise #4 – My Emotional Guidance System is the key to Understanding.

This is also the key to personal responsibility. This is the key to a life worth living. This is proof of Life, and it is Non-Physical. It is all about vibration, which is the stuff that holds this entire matrix together. Our emotions are the treasure map to Happy, Healthy and Wealthy.

We are energy and it is energy in motion (E-motion). Our Source is forever calling us to where our treasures lie. Some of us have to wait until we croak to receive them, and some find them here and NOW.

The best book I’ve ever read that explains how our Emotional Guidance System works is *The Astonishing Power of Emotions*, brought forth from the Teachings of Abraham, with the help of Jerry and Esther Hicks. I’m not going to rewrite it here, so please read the book.

When I’m happy, I’m aligned with my Inner Being. When I’m sad, I’m not. Whoever first coined the phrase, “Misery loves company,” understood the Law of Attraction. Where is my Inner Being when I am commiserating my life away with friends who feel my pain? It is in my Vortex, waiting for me to get sick and tired of being sick and tired.

The worst thing I can say about emotions is that people think feeling bad is normal, which is why most people don’t do anything to change their own mood. It is also the reason most people are just getting by financially and worrying about their health on a daily basis. People who are Happy, Healthy and Wealthy do not give worry a leg up on any subject. I AM the creator of my own reality. I AM responsible for my mood. I AM responsible for blocking my good—all the time.

Even though our thoughts create our reality, it is the emotion on the heels of the thought that determines our mood, which is why our emotions are so important.

Success gurus everywhere preach the importance of hard work, determination, perseverance, and even sacrifice to reach our goals. But how do those words *feel*? Your Inner Being doesn't see success that way at all.

Success is living a joyous, carefree life, trusting the Universe to turn your wildest dreams into reality. If more people understood the power of feeling good, and understood that creating wealth is an emotional journey, the happier, healthier, and wealthier they would be. The true measure of success is the amount of joy one feels.

Premise #5 – I Recognize the Power of Influence and Its Ability to Create in My Reality.

All of these premises are vital in laying the groundwork for helping people understand how they create their own reality, but this one is the Big Daddy of all Big Daddies.

First, I want to establish a fact here; i.e., that no one, nor any event or circumstance, has the power to create in my reality. However, when I don't know how things are coming to me, this is the reason why. The things I witness, the people I associate with, and the thoughts I think are all adding to my vibrational setpoint, and it is my vibrational setpoint that is creating my reality. It is my vibrational setpoint that the Law of Attraction manages.

What do I watch on TV? It is creating a vibrational setpoint.

What are my thoughts about politics? It is creating a vibrational setpoint.

What are my thoughts about religion? It is creating a vibrational setpoint.

What are my thoughts about child-rearing? It is creating a vibrational setpoint.

What are my thoughts about relationships? It is creating a vibrational setpoint.

What are my thoughts about money? It is creating a vibrational setpoint.

What are my thoughts about rich people? It is creating a vibrational setpoint.

What are my thoughts about health? It is creating a vibrational setpoint.

What are my thoughts about aging? It is creating a vibrational setpoint.

Who are my five closest friends? They are creating a vibrational setpoint.

Be more deliberate about where you focus your attention, and your habitual way of thinking. You don't have to even know what you're thinking. Pay attention to how you *feel*, and then pay attention to what is manifesting in your life. Your thoughts, your feelings, and your manifestations are *always* a match.

The masses want to believe there is safety in numbers, but nothing could be further from the truth. The more people I surround myself with, the harder it is to be my Self, which is why the greatest influencers in my life have been dead people, seriously. The Law of Attraction has brought us together. I AM Einstein. I AM Ayn Rand. I AM Ernest Holmes. I AM Jesus. I AM Karen Seeley, dancing to the beat of her own drummer.

I have very few close friends, which probably explains why I find it easy to live in a world of my own making. My only Power of Influence is my Inner Being. I AM Happy, Healthy and Wealthy, and the Law of Attraction continues to fill my playground with those co-creators of like mind.

Premise #6 – I Cannot Create in Anyone Else’s Reality

The most harmful vibrations that drain the Life Energy from people and cause more damage to the human race than anything else, are the vibrations of guilt and blame. If people would start accepting responsibility for their own vibrational output—thereby their own reality—the less drama the world would be forced to endure.

Horrible things happen to good people. We’re all good people. We are good people observing horrible things happening in the world, which creates our vibrational setpoint, and then we can’t understand why those horrible things come knocking at our front door.

You are not doing it to me. I am not doing it to you. No blame. No guilt.

That being said, hear this: Everything is about co-creation. Everything in the physical world is a co-creation. When I am partnering with my Inner Being, my creations are magnificent. When I am tuned in, turned on, and high on life, the Law of Attraction brings other Humans matching that vibration, and Real Magic happens. When I am out of alignment—angry, confused, frustrated or fearful—the Law of Attraction shows up at my door with the perfect match. I am not the cause of anyone else’s pain, just as no one else is the cause of mine. I do not blame you or feel guilty for my part in our co-creation. It takes two to tango. Learn to laugh at the drama and walk away. Accepting your part in the cause of the drama is not about guilt, it is about accepting responsibility. Turn that frown upside down and walk away wiser and happier.

Even the happiest, healthiest and wealthiest among us have out-of-the-Vortex experiences. No one is immune to tragedy. No one is immune to sorrow. Jim Carrey, a happy, healthy and wealthy poster boy for the Law of Attraction, is quoted as saying, “I think everybody should get rich and famous... so they can see it’s not the answer.” Co-Creation at its best and worst. We all experience it, and we all cannot wait to come back and do it again. That’s why I reiterate. Let the new ones come forth. Without them we have no future.

Premise #7 – I Thrive When I Focus on the Best Parts of My Life

Life is all about thriving, not surviving. If you have a survivor mindset, I suggest you get out a piece of paper and start writing down all the things in your life that you appreciate. This will align your thoughts with the thoughts of your Inner Being, and you will begin to create a momentum for the best parts of your life. When you are focused on the best parts of your life, the Law of Attraction will increase the momentum, and before you know it, everything in your life will take a turn for the better.

Happy, Healthy and Wealthy is a package deal. If you are not feeling well in your body, meditate. There's a reason you are sick in bed. Use the time to release all resistant thoughts: guilt, doubt, fear and anger. Sometimes we just need to go to bed. We need a time away from the world to regroup, regenerate, revitalize, and be reborn. Use those magical ears to hear the Voice within assuring you all is well. If you are inspired to go to a "wellness practitioner," do so. Chiropractors, Nutritionists, Massage therapists... co-creation at its best. I have had some great results with kinesiology. The cells in our body are communicating their needs to us. We need to learn to listen. Most importantly, do not beat up on yourself because you are sick. It only makes things worse. This too shall pass.

In my life, I have had suicidal thoughts—some fleeting, some not so much. The feeling of powerlessness will take a person to places they really don't want to go. One thing is for sure, there is a Light at the end of the tunnel. There is a rainbow within every storm. Look for the Light. Look for the rainbows.

Happy, Healthy and Wealthy is a package deal. Your Self-worth will create your net worth. The happiest, healthiest and wealthiest people in the world don't give money a second thought. They focus on what they want, without killing their ideas with doubt, which in turn creates a healthy mind and body, which in turn generates ideas, which in turn creates more wealth.

Premise #8 – Profit is Synonymous with Creative Ideas

Ideas are the stuff evolution is made of, and creative ideas create profit centers. We are each our own profit center, at the center of our own universe, and the Law of Attraction manages the increase of all profit centers. An idea is born.... The genius creator nurtures it, loves it, and gives it depth and breadth. The idea becomes airborne and the Law of Attraction draws other profit centers to the idea, and the profit centers expand throughout the universe. (Somebody ought to make a movie.)

Henry Ford didn't just have an idea to increase production of automobiles—the profit centers born around that idea are legion. Profit centers built the roads to carry the cars. Profit centers manufactured parts to keep the cars running. Profit centers built garages to maintain the cars. Profit centers built body shops to rebuild the cars. Profit centers put up toll booths to pay for the roads that carry the cars. Profit centers insured the cars. Profit centers provided the petrol to fuel the cars. Profit centers built junkyards where all cars eventually end up.

And the evolution of vehicles, fuel and recycling continues, ad infinitum.

We are all in this together. This is Spiritual Economics. We are all profit centers contributing to everyone else's profit center. It is Energy in Motion, and the Law of Attraction is organizing all profit centers great and small—according to our beliefs.

Premise #9 – I Live in an Abundant Universe that Delights in Expressing Its Limitless Supply Through Me.

Sustainable Wealth is about investing profit into more profit centers. The Church of Profitsea, like the Law of Attraction, is all about inclusion, not exclusion. The doors are open to all who want to participate in spreading the good news that being Happy, Healthy, and Wealthy is the natural course of evolution. I am repeating three definitions of money here from the *Teachings of Abraham*® because it bears repeating.

Money is one of the purest forms of energy there is because money is energy in *potential*—it can be a seed, and if used positively and proactively, it can reveal enormous Light.

Money's only purpose is to express appreciation. It is the most expansive energy that we can express and money is delighted to be the tangible expression of that energy.

As money flows in and out of our experience in joyful appreciation, let us be clear that it is not the source of our abundance nor is it a measure of it. Money is just one of the infinite ways we create to express appreciation.

I am a vessel. The energy of money flows to me and through me. I am worthy of all the happiness, health and wealth in my life. Pinching off my limitless supply will not increase anyone else's supply. Neither will my getting sick make someone else healthy, nor will my getting depressed increase someone else's joy. We are each creating our own reality based on the thoughts we think.

Revisit Abraham's discourse on Economics in Chapter 10. Every time you re-read that discourse you will get more out of it. There are many "ah-ha" statements in that discourse. It also helps to hang around people who believe this stuff. The power of influence works the room in many different ways.

Premise #10 – I give from the vibration of abundance, contributing only to those ideas I want to see expand in the world.

This Premise separates the wheat from the chaff.

Where your attention goes, your energy flows and it grows. The same thing goes for money. Flow the energy of money to something or someone that you want to see grow. The Law of Attraction will make it so. Flow the energy of money to people and causes that you want to see more of in this world. Mother Teresa said, “I will not march against the war, but I will march for Peace.” Don’t throw your money at things you want to see go away—the Law of Attraction will not allow that to happen—that thing you want to go away will only get bigger.

The Law of Attraction is consistently bringing into manifestation all things that match the flow of energy. This is a universe of inclusion—no thought is excluded. Whenever you shout “No” at something, you are really saying, “Come to me this thing I do not want.”

Throwing money at problems only increases the problems. Focus on solutions. Flow your money to ideas that increase happiness, health and wealth. You are God’s Enterprise. Whether it is owning your own business, or working to grow someone else’s business, you are still God’s Enterprise. Live in the solution. See the world as you want it to be, and it will be.

We are all in this together. The business owner does not make the money. The employees and the customers create the atmosphere for the money to flow. Money is created out of attention and focus—hopefully, it is loving attention and focus. If you lose the love, you’ll lose the business, and probably your health and happiness along with it. If you lose the love, it’s better to sell the business to someone who will love it. If you follow your intuition and do what you love, you will increase happiness, health and wealth.

This premise is recognizing the energy of money as just that—it is energy. You cannot have too much, *but you can believe you have too little*. When you give from a place of “sacrifice,” you are expanding your poverty consciousness.

Premise #11 – Healthy Relationships Encourage Freedom and Growth

It does not matter what relationship you are participating in. All healthy relationships encourage freedom and growth. The most important relationship you will ever have is your relationship with your Inner Being. When you learn to treat others the way your Inner Being treats you, you will have mastered the art of relationships.

We are all genius creators, sifting through the unwanted to get to our wanted. Every man, woman and child on this planet possesses the same creative power, and we all have an Emotional Guidance System letting us know how we’re doing. We give up our creative power when we start believing we can create in someone else’s reality. **Let them go, and watch them grow.** Do not allow another to make you responsible for their happiness. That is bondage. **Let them go, and watch them grow.** Hold yourself accountable—no one else.

Your Inner Being does not look back—there is no past. Are you carrying around a big old bag of garbage from the past? Guilt is the destroyer of happiness, health and wealth.. **Let it go, and watch yourself grow.**

There is nothing serious going on here. Life is supposed to be fun. None of us came into these physical bodies to create in someone else's reality. We all knew that we came to live life according to our own personal preferences. Choosing to live your life based on someone else's idea of how you should live your life is an abdication of your power, and it happens every moment in these oh-so-serious special relationships.

Stop looking outside yourself for that savior that is going to turn your life into happily ever after. You are that savior. When you start living life from your Vortex, the happily ever after happens without any struggle.

Premise #12 – Every new idea gives birth to another idea on how to make it even better.... It never ends.

We are living the never-ending story. We are creating the greatest story ever told—again. We are the designers and diviners of our own life experience, and it is good. We will return again and again to give birth to a new way of seeing the world. We have been hungry. We have been tortured for our beliefs. We have been enslaved by disconnected kings and dictators who had no idea what they were doing, and we still chose to return, devoid of all hate and prejudice. It is now time for the veil to be lifted, and the well-being to emerge. Everyone's life has value, and everyone has an Inner Being that loves Its Hu-man vessel more than 10,000 poets can describe. The nature of evolution is Joy, Freedom and Expansion.

Now the truth cannot be put back in the box. Once the truth has journeyed through the mind of a seeker, their world will never be the same. Thank Source Energy. Thank the Laws of the Universe, which were put in place before we arrived. We are not the limited, powerless, victims we once thought we were. We are the genius creators of heaven on earth.

Chapter 18

Where Do We Go from Here?

This is the evolution of religion, and it seems quite appropriate that it was born in America—the land of the free and the home of the brave. It will take a strong desire for freedom and consistent alignment with Source Energy to stand apart from the masses as a mentor in the Church of Profitsea.

In Wallace Wattles' book, *The Science of Getting Rich*, which was written in 1910, he offered a most profound idea:

“In the field of religion, the world cries out for the clergyman who can teach his hearers the true science of abundant life. He who masters the details of the science of getting rich, together with allied sciences of being well, of being great, and of winning love, and who teaches these details from the pulpit, will never lack for a congregation. This is the gospel that the world needs; it will give increase of life, and men will hear it gladly, and will give liberal support to the man who brings it to them.”

Before this book was ready for the masses, I had to get into vibrational alignment with the idea of a church for profit. A church where its leaders have mastered the idea of Happy, Healthy and Wealthy—in Mind, Body and Spirit. It has taken twenty-eight years, but I have finally made peace with the fact that the time has come for a religion of the people, by the people and for the people—we are all God's people. We were all born to live the abundant life, and with God, all things are possible.

The Rock of this church... the Foundation that supports this church... the good news surrounding this church is that God has given us everything we need, to have everything we want, without taking anything away from anyone else. There is only One Power and One Presence in the Universe—it is Pure, Positive, Non-Physical, God-force, Source, Love-Energy. There is only One Mind in the Universe. It is what Max Planck said was “the Mind that is the matrix of all matter.”

There's more good news. Born out of a patriot's heart, the Church of Profitsea is a beacon for all desirous of building their own mansions, creating their own enterprises, and joyfully increasing the wealth of those *believing* that the way to the abundant life is through LEVERAGE. The U.S currency proudly proclaims, “In God We Trust.” Free Enterprise is the Light that will draw all men to heaven on earth.

There are no limits—there are only humans with limiting beliefs.

This book was written for people who want to take responsibility for every aspect of their lives. This book was written for people who believe (or want to believe) that the Law of Attraction is as real as the Law of Gravity; neither one is either benevolent or malevolent. When you fall off a rooftop and break your leg, you do not blame it on the Law of Gravity. Neither should you blame the Law of Attraction for doing what it does. It consistently turns thoughts to things.

This book was written for people who believe in the Law of Attraction, or want to believe in the Law of Attraction, which is why the Church of Profitsea has decided that it wants to be a profit center for those believers. That was the original idea that came to me in 1996, but I was not ready. I had to play around with it for twenty years, while trying to make it something it was not.

There is nothing in the history of consumerism that allows for more unlimited income to go into the pockets of average people than Network Marketing, which I prefer to call MLM—**Making Love Manifest**. It's all about *leverage*. Whereas network marketing is about *building* profit centers, The Church of Profitsea is about *attracting* profit centers. This is a no-brainer when you know that Source Energy has your back all the time, and the Emotional Guidance System, *which you were born with*, is your greatest ally. If you want to make \$10,000 a month, or \$100,000 a month, you must start thinking as if it has already been accomplished, because it has. Once you asked, it was given, and it is a vibrational reality in your Vortex. As you think and *feel* like a person earning \$10,000 a month, or \$100,000 a month, the Universe *must* yield it to you. It is Law. My invisible good already exists in the *Field of Infinite Possibilities*.

Who are the richest people in the world right now? (Forget the happy and healthy part for a minute, because the richest people in the world are not all happy and healthy.) The richest people are rich because they have leverage on their side. Their money is making money. They have ideas that are making money. The Law of Attraction is on their side also, but why not have it All—Money, Robust Health *and* Unconditional Love.

Most Americans don't have the resources to launch a business where the startup costs are astronomical. When you become a mentor in The Church of Profitsea, you start your own enterprise with a \$50 investment in your Self. If you truly know that you are the *Light of the World*, the Law of Attraction will do the rest. We do not proselytize in this church. We do *not* recruit members in this church. We attract those genius creators who believe in their God-given ability to create the abundant life for themselves and others. The Enterprise must grow—it is Law.

There are people in this country who get paid millions of dollars for their talent. They can make one movie, or have a winning season in whatever sport they excel and earn a huge paycheck, which the average American couldn't earn in a lifetime. What's their leverage? Their leverage is YOU. You are signing their paychecks. Without YOU, they would be just like you. Actually, they *are* just like you. They were just like you when they had a dream of becoming a star. They believed in their dream, and the Law of Attraction made it happen. They probably had someone in their life who believed in them and encouraged them to stay the course. One thing is for sure, they refused to let anyone talk them out of it. Still, even though they appear to "have it all," when they stop acting, or stop playing the game, the money stops flowing. Even the entrepreneurial

geniuses of the world could lose all of their money in a minute. It's why I call them the risk-takers. The Church of Profitsea, however, will be forever returning its profits to its mentors.

Let's look at another profession that doesn't have any leverage. Everywhere I look today, I see advertisements for "Life Coaches." I always thought that was the job of parents, or teachers, or even ministers, but today it is a bona fide profession. There are "certified" Life Coaches. Recently, I ran across someone issuing certificates to teach the Law of Attraction. I didn't bother to inquire how much this person was charging for that certification, but I applaud her entrepreneurial spirit. These are well-meaning individuals who really want to help people, but there's no leverage there, either. One student at a time... one paycheck at a time... that's all they will ever get.

I see the "Wellness" professionals. Same thing.... Abraham-Hicks once said that massage therapy is the wellness enterprise of the future. But it's still One patient, one paycheck at a time.

It is time to leverage our energy as Life Coaches (and you don't have to be certified), ministers (and you don't have to be ordained), professionals in the field of Wellness (bring your certifications with you). The list goes on and on. Teachers who are worth their weight in gold cannot only have the satisfaction of adding value to this planet, they can have the gold, too.

Most network marketing distributors are hawking products, when what they really signed up for was the dream of financial freedom. Most network marketing distributors are not leaders. They are waiting—as I was—for someone else to catch the vision and run with it. In the Church of Profitsea, we *attract* leaders. If you cannot see the person you are sponsoring into this church as a leader, then give him or her to someone who can, because you will not like the fruit that your enterprise produces if you do not.

We are all God's Enterprise, and we are all the Light of the World. The income potential is enormous, but raising the prosperity consciousness one individual at a time is the *mission*. If you are looking at the members of your enterprise as dollar signs, they will know it, and you will be standing alone in the dark. The people in your upline or downline are *not* going to make you rich. Your prosperity consciousness will make you rich. Truly loving your neighbor is the icing on the cake. We always get more than we're asking for when we ask on behalf of others.

The mentors in this church are mentoring. They are listening to their protégés. They are going to believe in their protégés. Their goal is to watch their protégés become mentors. Their protégés will do even greater things than their mentors. This is the legacy we leave in the world.

We are starting with twelve mentors: twelve genius creators who catch the vision, believe in the mission, and trust the Laws of the Universe to expand their enterprises as a beacon for all seeking respite from working too hard and getting too little in return. Having to work hard is a belief system that does not bode well in the Church of Profitsea. When you love what you do, you never have to work a day in your life.

All mentors teach by example: Happy, Healthy and Worthy of all the blessings in their lives. They will be living by their own beliefs and their protégés will do the same. The Church of Profitsea will never dictate what members' beliefs should be; *the result of the Individual Enterprise will be self-evident.*

“If you want what we have and are willing to go to any length to get it.”

(excerpted from the Big Book of Alcoholics Anonymous, Chapter 5)

The movement of Alcoholics Anonymous has been monumentally instrumental in moving Humans from a God of Religion to a God of their own understanding. When I walked into my first AA meeting on October 26, 1976, the thought that I could have a God of my own understanding resonated with me so strongly that I wept for days.

Carl Jung said, “Life truly does begin at 40. Prior to that, everything is research.” On October 26, 1976, I was 30 years old, and my research had just begun.

We all have plateaus where we find ourselves comfortable; these are our Way Stations. We can live in one Way Station for an entire lifetime, or we can continue to grow. Seventy-eight years are but a blink of an eye in eternity. I have traversed a half-dozen Way Stations in that amount of time. I love burning bridges. I live for the future. I believe in the future. I create the future. I AM the future. And the future is NOW.

The Church of Profitsea is not trying to start a new religion, but it is Albert Einstein's “next stage” of religion. The Church of Profitsea could be the evolution of *anyone's* religion. It is only those genius creators that truly believe they can create the life of their dreams that will thrive in this new world order. Everyone is welcome, but not everyone will flock to our door. As Albert Einstein pointed out:

“Great Spirits have always been violently opposed by mediocre minds.”

All are welcome, but only the Great Spirits will enter. There is no need for humility. Give credit where credit is due. There will never be, in all eternity, another You.

Albert also said:

Imagination is more important than knowledge

Look where our imaginations have taken us; from the dark ages, to the age of reason, to the space age and beyond. There is no end to how happy, healthy, and wealthy we can be.

Chapter 19

The Elephant in the Room

The Church of Profitsea is concentrating Its Light on showing the world what the evolution of religion can do when joy, well-being and abundance come *directly* from the unlimited Source. No intermediary required. We are sovereign individuals whose success is not dependent on the ruling government party. Those who are sleepwalking through their life believe that wealth is power, which is *not* true. There is a difference between Power and Force. True Power comes from within. We were all born with it. Sovereign individuals use their God-given Power to overcome any force that attempts to take away their freedom. We have come too far to let that happen. No longer will we be told what to think, what to believe, how to act, and how to speak. There is a new heaven and a new earth where sovereign individuals get rich by loving their neighbor. Those who do not understand that concept will be operating in an alternate universe focusing on the problems instead of the solutions.

As Profitsea Practitioner, my advice to anyone desirous of joining the greatest movement in the history of the world is Do NOT argue or debate anyone else's opinions or ideas. If they ask questions, answer from the heart. Always be authentic. But everyone has the right to be wrong, and the Law of Attraction will continue to prove to them that they are right, so just Let it go. Please remember you are ATTRACTING them. You would not have attracted them if you were not on their frequency. Change the dial and walk away.

To quote Abraham-Hicks: **Talk less... feel more... defend never... and praise only!** Those words are a part of a guided meditation I've been doing for years. The best advice I've ever heard.

Something else that will come up is the aversion to the word, "Church." As a bona fide sovereign member of this church, you are in charge of naming your own Enterprise. I see every religion being represented in this church. Every "leg" is autonomous. I see a Christian leg, a Catholic leg, a Jewish Leg, a Muslim leg, a Mormon leg, an Athiest leg, a New Thought leg, a Libertarian leg, the list goes on and on. The Church of Profitsea was the name I downloaded from my Source, and it is the name of *my* Enterprise. Your Inner Guidance might have a different name for your Enterprise. You won't hurt my feelings! COPS' logo, however, is a separate trademark. Every member can proudly display the logo without having to call their enterprise a church.

What other “logo” can you think of that represents the feeling of
HAPPY, HEALTHY and WEALTHY
HAPPY, HEALTHY and WORTHY
FAITH, FOCUS and FREEDOM
FAITH, FAMILY and FUN
PURPOSE, POWER and PROSPERITY?

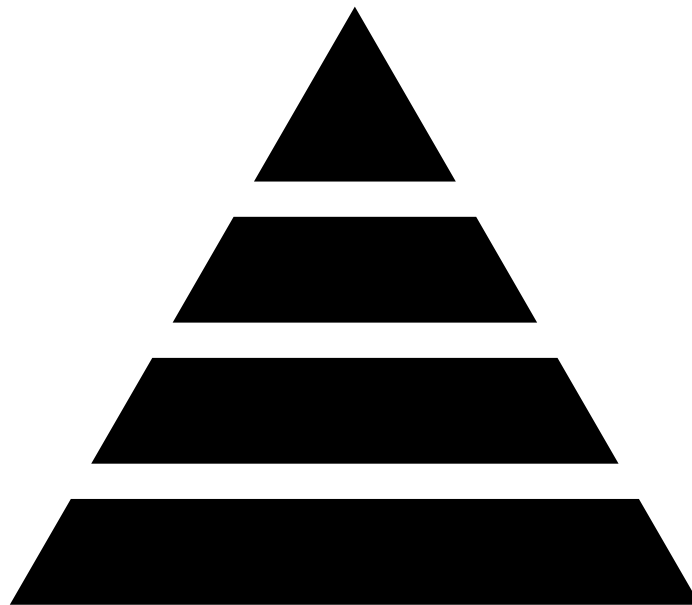

The red, white and blue of the first government in the history of the world to make free enterprise work. A government of the people, by the people, and for the people, embedded in what I call the Flower of Life. A symbol that says *there is no separation between the physical world and the non-physical field of infinite possibilities*. A marriage of Science and Spirituality. A marriage of Science and Religion: Einstein’s Cosmic Religion. A marriage that is guaranteed to last beyond the grave.

Now let's talk about the *real* elephant in the room. I know a lot of people believe MLM is a "Pyramid Scheme," and the only people who succeed are at the top of the pyramid. People fear what they don't understand. It's human nature. And that is the last time I'm going to use "I'm only human" as an excuse. I really hate that excuse, since I know that is not true. We are 99.99% non-physical, which is the science of my religion.

True illegal pyramid schemes have a large buy-in. That's how the "victims" get taken advantage of. They are told: "Give me thousands of dollars, and I will return it to you at a much higher interest than the banks are giving you, and I will do it in a matter of days or weeks. Then the scammer has to recruit another sucker to keep his scam going. *This is the Law of Attraction in Action.* The victim and the victimizer are vibrating on the same frequency. The "victim" sees easy money, and the scammer sees an easy mark. I put the word "victim" in quotes because there are no victims in the Church of Profitsea.

COPS is asking for \$50—not \$50,000. And you are not guaranteed any money back! If you don't want to build your own Enterprise, keep your \$50, we don't want it. COPS is all about entrepreneurship and mentorship. Also, we DO have a product; it is Self-Realization.

Our MLM is all about TRUST. **Trust God... Trust your Self... and Trust the Mentor that attracted you to this Enterprise.** You are truly a TEAM... All THREE of you! There are many trinities in this Enterprise, which is what the pyramid signifies. It is the consciousness of a true leader to see themselves at the TOP. How else can you give a hand-up to those you mentor? We are truly all in this together.

In that same vein, we are each a part of a greater whole, but we are each unique unto ourselves. When we can see ourselves as the WHOLE Pyramid, we will know all three sides to our Self.

The pyramid is Sacred Geometry. It proves the connectedness of All-That-Is to the material world. I stand firm in my conviction that the New Trinity *is* Happy, Healthy and Wealthy. *Happy is the Spirit... Healthy is the body... and Wealthy is the Hu-man that knows he is WORTHY of the unlimited abundance that Source is bestowing upon him every minute he walks this earthly plane.*

Chapter 20

3-6-9 -- The God Frequency

Why 3-6-9? Nikola Tesla said: “If you only knew the magnificence of the 3, 6 and 9, then you would have a key to the universe.”

There could be another book written on the God Frequency alone, so I’m just going to say that there is a God frequency, and the secrets of the universe are not a secret any longer.

We do not hide our Light under a bushel. Self-Realization is our vocation, and we are proud of it. We will display the COPS logo with pride everywhere we go; on our cars, on our clothes, on our eco-friendly shopping bags... be creative. Very soon everyone will know what that logo stands for and people will be lined up at your door asking for an application. Don’t trust me; trust the mentor that attracted you to this Enterprise and trust your Source that loves you more than your human mind can conceive. TRUST is one of the major secrets of the kingdom of God.

COPS will *always* be more about mentorship than membership. The mentors in this church give from their abundance. They give their time, their talent and their wisdom to the members of this church. You will know them by their fruit. The rewards they reap will be far greater than silver or gold. They will be among the happiest, healthiest and wealthiest people in the world, and they will be teaching *the secrets of the kingdom* by example.

This Pyramid is 9 levels deep and 12 legs wide, with dividends being paid on levels 3, 6 and 9. It is 9 levels deep to offer the opportunity for every genius creator to achieve all 9 levels of enlightenment. It is 12 legs wide to allow for the genius creator to build a strong enterprise based on the 12 Premises behind the formation of the physical YOUiverse. We are all in this together, but no one is going to build your Enterprise for you. There are many, many, many trinities in this COPS family. You...Me...and God. And the speed with which you increase your happiness, health and wealth is irrelevant because we never get it done. This is an eternal Enterprise, and NO ONE is left behind.

**The return on a \$50 investment to the COPS family is \$45.
40% at Level 3, 30% at Level 6, and 20% at Level 9.**

In a perfect world scenario, which is the best kind of scenario to choose from, **at Level 3 you would receive 40%** Return on Investment from 144 sovereign enterprises, for a monthly income of \$2592. But because you are already thriving in your own enterprise, and because some of your protégés are tithing to your enterprise, this money is used as seed money to expand God’s Enterprise.

At Level 6 you would receive a return on investment of 30% from 248,832 sovereign enterprises, for a monthly income of \$3,359,232.

The only reason more people are not making this kind of money right now is because they don't have a NEED for this kind of income. Hopefully, the Church of Profitsea will deepen the well of understanding and expand the Soul's vessel (which is YOU) to be more, do more, and logically *have* more. It's time to wake up to the kind of world you could create with this kind of Energy at your disposal.

Space travel is a reality in our world today. Do you have any idea the type of money it takes to expand our space program so we could colonize other planets? Elon Musk can't do it alone! And we sure as heck can't count on the government to bankroll space travel. The Energy of money is here for the good of ALL.

But before we get on a spaceship and ride off into the sunset, let's end poverty on this planet first. Ending poverty is not a pipe dream. But only LOVE can accomplish that feat. We need a complete revamping of our educational system. We need engineers of all shapes and sizes. I think I've said it before, but it deserves repeating. It is NOT the politicians, or religious leaders that are going to end poverty. It is the entrepreneur.

Finally, and most importantly, we need the FAMILY back. This is the dream of the Church of Profitsea. **Faith, Family and Fun.** *The newest Trinity.* After you've purchased your dream home, and the dream cars, and you've taken all the exotic vacations you can stand, it's time to start spending that most precious commodity known to mankind, which is TIME, with those you love the most. That's where your WORTH lives. Let your WEALTH work for the good of humanity, while you focus your attention on those you Love. We can never have too much love, or too much money. The Energy they produce together will usher in the new heaven and the new earth beyond your wildest imagination.

Most humans would be delighted to hangout at Level 6 forever. But continuing to labor in love through to Level 9 takes a genius creator that most of humanity cannot conceive of, and that's okay! Don't stop. Believe in homo universalis. Believe in the Field of Infinite Possibilities. Believe in the never-ending story that you will continue to write.

At Level 9 you would receive a return on investment of 20% from the hearts and minds of 429,981,696 genius creators, **for a monthly income of \$3,869,835,264.** And that is in addition to your Level 3 and Level 6 income.

For those who can't picture themselves a billionaire, if only ONE person on your second level filled out their entire membership, your monthly income would be \$322,766,424.

That's right. Dream BIG. But most importantly, buy into your neighbors' dreams, too. Everyone needs a hand up when they're first starting out. Now it is time to take philanthropy to an entirely NEW level. Take it to the NEXT SOUL LEVEL. What is your legacy? Where does your passion lie. With all the genius creators in the world hungry for their own enterprise, my passion is in venture capitalism.

Is your passion in education? We need to pay our teachers more! Support the kind of education you want to see expand in the world. Support the Arts and Sciences. Believe in the FUTURE by

investing in it. Support Mind/Body healing. The non-conformists of the world; listen to the Call and trust the Universe to support you. I love you all and thank you for trailblazing the not-so-popular flip side to so-called “reality.”

We are all in this together. We do not all believe the same things. We do not all want the same things. We do not all speak the same language, but we all are connected through Love. The Love that created us also created a way for us to have everything we want without taking away anything from anyone else. Just as the Nobel Prize-winning banker discovered that investing in the individual... believing in the individual... seeing the individual thrive and prosper... is the greatest return on investment anyone could ever ask for.

Money is only energy and the energy of a half a billion people taking personal responsibility for their health and financial welfare, without depending on the government for their support, is truly a miracle to me.

The mentors in the Church of Profitsea are raising the bar on philanthropy. It has already begun. But it is never too late to get on board. It is written: There will ALWAYS be another train. No one is left behind.

It is essential that the mentors in Church of Profitsea do not start thinking of themselves as greater than the whole. You are not THAT God. You are merely an example of what God can do in a person's life that *knows* the Source from which they come. There is a cosmic dance going on that has your name on it, and with your Inner Being as your *first* dance partner, you cannot misstep.

I am closing this Chapter with my personal prayer:

I pray in the Name of Expansion, which is the Eternal Nature of our Source. Whenever two or more are gathered in the Name of Expansion, there will be an abundant supply of creative ideas and resources given to each one of us, according to our own heart's desire. Let us never forget that in our Connection to our Source lies our greatest strength. As it is in heaven, so be it on Earth. AMEN

Chapter 21

Applications Are Now Being Accepted

This is a Clarion Call for all the Leaders that are interested in being One of the first 12 trailblazers in God's Enterprise—a church for profit. Your names will be written in the history books as one of the greatest visionaries behind the New Heaven and New Earth.

The only requirement is a passion for the mission and purpose of *your* Enterprise. The fruits of your enterprise will be self-evident. Being Happy, Healthy and *Worthy* of all the abundance that is being bestowed upon you is a prerequisite for Leadership. You cannot give away something you do not have.

I see the 12 legs of this church being governed by the Greatest Entrepreneurs of All Time. You know who you are. I realize you might think that what you do cannot be taught, and maybe “mentoring” might not be your Schtick, but please rethink that belief. You ARE the Light of the World. You are making it possible for people everywhere to dream their dreams. Their dreams might not be as big as your dreams, but your dreams give them hope.

Contact me directly at Karen@KGS4EVER.com. Your application will be 250 words or less as to why you want to hitch your star to this Cosmic Love Train.

APPENDIX
KAREN STEIL'S READING LIST FROM 1976-2006

"KNOWLEDGE IN BOOKS IS LIFELESS; KNOWLEDGE IN THE CONSCIOUSNESS OF MAN IS ALIVE." (ALBERT EINSTEIN)

TITLE	AUTHOR
72 Names of God	Yehuda Berg
A Course in Miracles	Foundation for Inner Peace
Alcoholics Anonymous	World Wide AA Foundation

Money is My Friend	Phil Laut
Power of Kabbalah	Yehuda Berg
Power vs Force	David R. Hawkins, M.D., PhD
Prophet, The	Kahlil Gibran
Road Less Traveled	M. Scott Peck
Think and Grow Rich	Napoleon Hill
Think and Grow Rich: A Black Choice	Dennis Kimbro
Unlimited Wealth	Paul Zane Pilzer
You Can Have It All	Arnold Patent

This is the end of the Original Appendix. I've already mentioned some of those genius creators that have had an impact on my life *since this book was first published* but I want to recognize them here, too. Only a few of them are dead.

Ernest Holmes and the Science of Mind. He's with me every day. I have been reading his Daily messages from 365 Science of Mind every day for the last 6 years.

Barbara Marx Hubbard. Please watch her series on Homo Universalis on Gaia. She was definitely ahead of her time.

Thomas Sowell, from Spiritual Economics to Basic Economics. He rocks my world every day.

Bruce Lipton, *The Biology of Belief.* This guy's on fire with his conversion from scientist to meta-scientist.

Robert Edward Grant. Learn to speak the language of the Universe. If your mind can keep up, I think he is one of the best *flesh and blood* Teachers on the planet right now.

Donald J Trump was quoted in this book. You may love him or hate him, but he cannot be ignored. Larger than life, he is the Law of Attraction in Action.

To round out my idea of great entrepreneurs with substance are **Dana White** and **Vivek Ramaswamy.** I do not idolize anyone. I've never been to a concert, and I would never ask anyone for their autograph, but some people just make my heart swell when I think of them.

Finally, this quote is attributed to **Eleanor Roosevelt,** but she got it from **Socrates,** who is considered to be the God-Father of Stoicism. This quote helped me understand the reason for my "lone wolf" existence.

**Weak minds talk about people
Mediocre minds talk about events
Great minds talk about ideas.**

About The Author

I do not want this book to be about Karen Seeley. This book is for everyone that has ever been made to feel guilty for wanting anything. Hence the banner Bible Verse: Psalm 145:16. “You open your hand and satisfy the desire of every living thing.” Wanting more for yourself and your family is *nothing* to feel guilty about. It is the nature of evolution, and it’s what cosmic religion is all about.

We can have it all—Happiness, good health, and wealth—but only those that believe will achieve. This is not a new religion. This could be the evolution of ANY religion. It’s time for the faithful to wake up and realize that they do not need an intermediary to *know* God. And Poverty is not a prerequisite to the kingdom of heaven. In fact, it is quite the opposite. Heaven is not a place... it is a State of Mind. Poverty consciousness is a habit that anyone can break.

THIS IS THE BACK COVER OF THE ORIGINAL BOOK

Every Child born is the Light of the World

A Song for Genius Creators

Life is Good; it's supposed to be fun.
Life is eternal and Free.
Wherever I go, whatever I do,
I AM my own legacy.

I will return again and again
to give birth to a new way of seeing.
For I am a child of the Universe;
one whose Source is well-being.

We are all explorers and trailblazers,
Sailing uncharted seas.
Desire is the Wind in our Sails.
Our Passion summons the breeze.

There is no call for humility.
Give credit where credit is due.
There will never be... in all eternity,
another YOU.
